PART I.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 6th May 1909.

READ—

1. Government Order No. R. 2417-28—L. R. 143-08-1, dated the 22nd October 1908, conferring on the Guru of the Sringeri Matt for the time being and on his successors in the same sacred office, who may be duly recognised as such by the Government, the right to all precious metals, precious stones, coal and other minerals comprised within the limits of the Sringeri Jahgir and the villages outside the Sringeri Jahgir held in Inam by the Guru of the said Matt.

2. Correspondence ending with letter No. 2244, dated the 5th March 1909, from the Secretary to the Government of His Highness the Maharaja of Mysore in the Geological Department, soliciting instructions as to who is the authority empowered to grant mineral licenses and leases in the said Jahgir and Inam villages, whether the Matt or the Government and if the former, whether they are at liberty to impose their own terms or are required to follow the rules issued by Government.

No. R. 9172-5—L. R. 143-08-6, DATED BANGALORE, 6TH MAY 1909.

ORDER THEREON.—On a careful consideration of the subject, Government consider it necessary to impose the following limitations upon the exercise of his discretion by the Jahgirdar in the matter of issuing prospecting licenses and mining leases in order to safeguard the general interests of Government and to prevent complications that may arise in the event of his coming into conflict with foreign mining syndicates:—

(1) The maximum area to be included in one prospecting license shall not exceed ten square miles. The licensee will be entitled to select one square mile of the block and take a mining lease for it. (These limits will not apply, however, to exploring licenses, in regard to which no maximum area will be fixed.)

(2) The maximum area to be included in one mining lease will be one square mile, but the length of the block shall not exceed four times the breadth.

(3) The Jahgirdar may grant more than one lease to the same person, subject to the restriction that the total area of the blocks under all the leases held by the same person does not exceed two square miles in the case of leases for gold mining and thirty square miles in the case of other minerals.

(4) The Jahgirdar shall not levy rents and royalty at rates which are less than the minima fixed by the Government.

(5) No kinds of concession not allowed by the rules of the Mysore Government for the grant of prospecting licenses and mining leases shall be granted by the Jahgirdar without the sanction of the Government.

(6) All concessions to foreign capitalists shall be subject to the approval of Government.

(7) Copies of all licenses or leases granted under the authority of the Jahgirdar shall be sent to Government in the Geological Department for their information.

Subject to the above limitations and to any further limitations which it may hereafter be found necessary to impose on political or other grounds, and also to the provisions of the Mining Regulation and the Rules thereunder, the Jahgirdar will be free to make his own arrangements for the disposal of his mineral rights.

No. R. 9285-94—L. R. 317-08-9, DATED BANGALORE, 10TH MAY 1909.

ORDER THEREON.—The total estimated jamabandi for the year 1908-09 under the several heads of Revenue is, as specified in the appended Statement A., Rs. 1,85,35,039 against Rs. 1,87,08,841, the actual demand for 1907-08. A net decrease of Rs. 1,73,802 is thus anticipated as shown below :—

Heads of Revenue.			Increase (+) or decrease (—) as compared with the actual demand for 1907-08.
			Rs.
Land Revenue	...	...	— 40,218
Forest	...	..	— 1,21,901
Abkari	...	...	+ 72,013
Mohatarfa	...	...	— 25,422
Sayer	...	...	— 1,212
Salt	...	...	— 3,942
Miscellaneous including stamps, registration, etc.			— 53,117
Total net decrease		...	— 1,73,802

2. *Land Revenue.*—The total estimated jamabandi under this head shows a net decrease of Rs. 40,218, which is the result of a decrease in seven districts attributable to adverse seasonal conditions which tell on the demand under fluctuating items set off by an increase of Rs. 13,360 in the Shimoga District, expected from the introduction of the revision settlement into the Sorab Taluk, and from a large number of darkhasts likely to be received during the year. In framing the estimates, of course, no allowance is made for the remissions and suspensions of revenue likely to be necessary owing to the existence of distress in parts of the State and about which Government have issued instructions in their Order No. 4332-76—Agri. 105-08-1, dated the 4th January 1909.

3. *Forest.*—Under this head, there is on the whole a net decrease of Rs. 1,21,904, notwithstanding an increase of Rs. 8,764 and Rs. 10,637 in the Kolar and Tumkur Districts due to higher prices realized for tangadi bark. The falling off is reported to be chiefly due to the diminished sales of sandalwood owing to the vagaries of the market.

4. *Abkari.*—There is on the whole an increase of Rs. 72,013 under this head in all the districts taken together. An increase occurs in six districts due to higher bids for toddy and arrack during the year. There is a decrease in the two districts (*viz.*, Bangalore and Chitaldrug) attributed to an anticipated decrease in consumption among the poorer classes owing to the higher prices of food grains.

5. *Mohatarfa.*—The decrease of Rs. 25,422 under this head is stated to be chiefly due to reduction of hittal kandayam (assessment on vacant sites) and to the conversion of some villages into Unions whereby the revenue is transferred from the State to Local Funds.

6. *Miscellaneous.*—Under this head there is a decrease in six districts and increase in two districts (*viz.*, Tumkur and Kadur) resulting in a net decrease of Rs. 53,117 on the whole. The abolition of fees for primary education and the anticipated effect of the adverse seasonal conditions on receipts from stamps and registration are mentioned as contributory causes.

7. The annexed Statement B gives the talukwar particulars with reasons for important fluctuations.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 15th May 1909.

READ—

Letter No. 10773, dated the 16th April 1909, from the Revenue Commissioner in Mysore, submitting for orders a copy of the Shimoga Deputy Commissioner's docket No. 837, dated the 14th April 1909, requesting that provision may be made in the next year's Budget for the construction of a new building for the Kumsi Sub-Taluk Cutcherry.

No. R. 9528-9—L. R. 348-08-2, DATED BANGALORE, 15TH MAY 1909.

ORDER THEREON.—In Government Order No. R. 7448-9—L. R. 502-07-2, dated the 18th May 1908, the Chief Engineer was requested to provisionally include the work in the current year's Public Works Department Budget, subject to further consideration as to the order in which funds should be provided for the construction of new buildings for Taluk Cutcherries in places where they are urgently required. The Chief Engineer states that no endeavour has been made to decide the order of urgency in which funds should be provided for such buildings, and that the necessary action in that direction should be taken by the Revenue Department.

2. Government therefore direct that a Committee consisting of the Revenue Commissioner as President, the Chief Engineer or, in his absence, the Deputy Chief Engineer and the Deputy Commissioners of Districts, should meet at Mysore on the occasion of the ensuing birthday of His Highness the Maharaja and decide and report to Government what revenue buildings are likely to be required during, say, the next ten years, and which of them (and in what order) should be taken up in the next two years.

Proceedings of the Government of His Highness the Maharaja of Mysore,

BEFORE THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

APPEAL No. 21 OF 1908-09.

Appellant	*Vs.*	Respondents
Raja Dod Nanjappa Setti		1. Anantiah, Khatedar 2. Venkataraya, Shanbhog of Chikhejjaji village, Dodballapur Taluk.

Subject.

Appeal against the order of the Deputy Commissioner, Bangalore District, declining to set aside the sale held for arrears of revenue of Survey No. 3 of Chikhejjaji village, Dodballapur Taluk.

Facts of the case.

The first respondent Anantiah, Khatedar No. 21 of Chikhejjaji village, Dodballapur Taluk having in his name Survey Nos. 3, 87—1, 93—1 and 93—2 of the same village, failed to pay the kandayam of Rs. 39 due on the khate for the year 1898-99. Notice of demand was thereupon served on him on the 10th March 1899; and the default continuing, all the lands included in the khate were forfeited to Government and ordered to be sold. Though the appellant is the mortgagee of Survey No. 3 referred to above (dry 6 acres 1 gunta and assessment Rs. 9) and had his name entered in the special register so far back as July 1896, no notice of default in the payment of kandayam was issued to him as required by rules. The estimated value of the land was also not ascertained before forfeiture, and as a result, the sale was entrusted to the shekdar, who would have had no jurisdiction to conduct the sale as one of the survey numbers comprising the khate, *viz.*, Survey No. 3 in question, is by itself said to be worth Rs. 400. At the sale held by the shekdar on the 12th May 1899, Survey No. 3 was knocked down to the 2nd respondent for Rs. 100 and the other lands were not sold, the full arrears due on the khate having been more than realised by the sale of Survey No. 3 alone. The sale was confirmed by the Assistant Commissioner, Mr. P. Seetharamiah, on the 16th June 1899, and the remaining lands of the khate were ordered to be released from attachment. The surplus of the sale proceeds was, as requested by the khatedar, credited towards the arrears of kandayam due by the khatedar in respect of some other lands of his but of a different khate. On the complaint of the mortgagee (appellant) preferred on the 23rd August 1899, protesting against the sale on the ground that it was irregular as no notice was issued to him, a report was called for and the Amildar explained that the omission to issue a notice to the mortgagee was due to pressure of work. The Assistant Commissioner, Mr K. R. Srinivas Iyengar, was not satisfied with the said explanation and after some correspondence the sale records were finally submitted on the 28th October 1901 for the orders of the Deputy Commissioner. After the lapse of nearly four years, the Deputy Commissioner, Mr. Devaraj Urs, in his order dated the 4th August 1905, held that the sale was irregular, no notice of default having been issued to the mortgagee; that the Assistant Commissioner had confirmed the sale, the above omission not having been brought to his notice; and that the mortgagee should not be made to suffer for the said omission. The said Deputy Commissioner, however, being of opinion (evidently on account of misapprehension) that as the land had been already put in possession of the auction purchaser, he was not competent to set aside the sale without a reference to Government, directed the Assistant Commissioner to examine the parties with a view to effect an amicable settlement between them if possible. As it was reported that the appellant and the auction purchaser did not come to any settlement, the Deputy Commissioner declined, on 7th July 1906, to set aside the sale for the reason given in his order dated the 4th August 1905. Hence the present appeal by the appellants to the Revenue Commissioner.

Land Revenue, dated 17th May 1909.

The case having been withdrawn from the file of the Revenue Commissioner under Section 210A of the Mysore Land Revenue Code, has come up before Government for disposal. The appeal was heard on the 7th May 1909, when the appellant and the 2nd respondent were present. The 1st respondent, however, was absent though notice of hearing was duly served on him.

Decision.

Rule 40 of the Mysore Land Revenue Rules makes it imperative that a notice should be issued to the person who has registered his name as a party interested in a field. This was not done in the present case, and hence the sale which deprived the appellant of his interest altogether was invalid. The purchaser says that he has spent money on improvements, but the so-called improvements are only the supplying of manure, etc., (ಗೊಬ್ಬರ ಕೊಟ್ಟದ್ದು) to the field which is a dry one. These are not improvements for which he can claim any compensation. The return for manuring and paying kandayam is the crop which the purchaser reaped each year, and so the respondent will not be prejudiced by the sale being set aside. Government accordingly direct that the sale in question be set aside, but subject to the condition that the appellant will pay the purchaser the full amount of purchase money, *viz.*, one hundred rupees, which should be deposited with the Amildar within a month. He (appellant) will be free to recover it from the defaulter or other person who should legally bear the charge. In default of such deposit, the present appeal will stand dismissed.

2. Government observe with regret that this case has dragged on for about ten years and shows that there was gross neglect both in the Taluk and the District Offices.

Nos. R. 9553 & 9554—L. R. 389-08-2, DATED BANGALORE, 17TH MAY 1909.

Copies of the above decision are forwarded (1) to the Revenue Commissioner in Mysore for information and (2) to the Deputy Commissioner of the Bangalore District, together with the records of the case received with his letter No. 324, dated the 10th November 1908, addressed to the Revenue Commissioner.

Proceedings of the Government of His Highness the Maharaja of Mysore.

EAD THE FOLLOWING :—

Letter No. 8642, dated the 23rd February 1909, from Rajakarya Pravina A. Rangaswami Iyengar, Esq., B.A., B.L., Revenue Commissioner in Mysore, to the Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments.

I have the honor to submit herewith Comptroller's letter No. 3297—T. A. D. I. 989, ıted 10th December 1908, reporting on the working of the Treasuries in the State during ıe year 1907-08, and to state as follows :—

2. The Comptroller has, in this review, set forth in detail the chief defects and irregurities noticed in his office during the year under report in the course of the examination of ıe Treasury Accounts, and has compared them with similar omissions and mistakes observed ı the previous year. It is gathered from the statements accompanying the Comptroller's tter that there was some general improvement in the submission of vouchers and subsidiary ɔturns by the District Treasuries and in payment of bills. But at the same time it is clear ıat these Treasuries have still left much to be desired in other directions, as, in the subıission of the monthly lists of payments and cash accounts and the annual returns. The himoga Treasury which is reported to have been punctual in previous years in the submison of the accounts, has fallen back in some respects during the year; and the Mysore Treas-ɛy which has come in for frequent criticism in the past, has not shown any improvement.

3. I am generally in accord with the Comptroller in his observations on the various regularities noticed in his review. But I think that this is neither the time nor the place ı investigate the causes that led to a relative increase or decrease in the frequency of mistakes ɔticeable in any particular district. For, as observed by me on a previous occasion, how ɪr this was due to heaviness of work in the Treasury, the indifferent quality or insufficient rength of the establishment or lack of supervision on the part of the presiding officer, it ill be difficult to say. The Deputy Commissioners of the districts which have been too ow in the submission of the accounts or have been responsible for many errors in Treasury ɔcedure will be separately addressed by me and any officials that may be found responsible ɪr the same will be suitably dealt with. It would be easier for me to take such action if ıe Comptroller could, in future, bring specific cases of such neglect or delay as they occur.

4. I think that the delay in the submission of vouchers in support of payments, which is ferred to in particular in para 7 of the Comptroller's letter, may be partly due to the system submitting consolidated vouchers that appears to exist in most of the Treasuries. The eputy Commissioners will also be addressed on this subject with a view to discontinue the me if practicable.

5. As regards the administration of the Treasury Department in general, I am glad to ı able to report that both the Taluk and the District Treasuries are receiving greater attenɔn at the hands of the Revenue officers than in the past. During the year under report, istrict Treasuries of Kolar, Mysore, Shimoga, Kadur and Chitaldrug were inspected twice detail and those of Tumkur and Hassan once by the Deputy Commissioners. With a few ceptions all the Taluk Treasuries were inspected twice in detail once by the Jamabandi officer and once by the District Treasury Officer. I inspected all the District Treasuries and also the marginally noted Taluk Treasuries. Besides the personal advice and warnings given by me during such inspections, circulars explaining Codal rules are being issued from time to time to remedy the shortcomings noticed by myself or ought to my notice by other inspecting officers in their detailed reports.

6. I now refer briefly to the other measures that have been taken or are in my ɔinion necessary for raising the present standard of work in the Treasuries :—

(i) The scheme for giving Assistant Commissioners a practical training in Treasury work and the rules requiring all Treasury Clerks and Accountants to pass the Accounts Test are likely to improve the present situation only in course of time.

(ii) It should be possible to secure this end much sooner, if some of the District Treasury Accountants who have passed the Accounts Test be made to pass through the Comptroller's office in the manner suggested in my report for the

year 1906-07. But the Comptroller, who was, in pursuance of para 2 of Government Order No. R. 8490-9—L. R. 539-07-2, dated 24th June 1908, consulted on this proposal, has objected to the same on the ground that it is not desirable to bring the Treasury staff into contact with the officials of the Audit office although one of his predecessors had himself suggested a similar proposal. (*Vide* copy of his letter No. 2429—710, dated 30th October 1908, enclosed.)

(iii). The absence of a suitable District Treasury Manual similar to Madras and Bombay Manuals is perhaps another desideratum. Such a manual will be more useful than the British India Civil Account Code, which is too general and to which alone the Department has to look up for its guidance. So far back as February 1907, I urged Comptroller the desirability of supplying this want. But he has not yet favoured me with his opinion in the matter.

(iv) The suggestion made by the Comptroller in para 15 of his review referred to above, *viz.*, that Assistant Commissioners should be kept in charge of one and the *same Treasury* for not less than three years, has its chief value in its making it possible to fix responsibility for delay and inefficiency on the part of different Treasury Offices and their establishments.

7. In conclusion, I would state that the effect of all such remedial measures can only be gradual and it is too soon to expect an improvement in the shape of an appreciable reduction in the number of defects and irregularities of the kind mentioned in the Comptroller's review.

Letter No. 3297, dated 10th December 1908, from J. S. Chakravarti, Esq., M.A., F. R. A. S., etc., Comptroller to the Government of His Highness the Maharaja of Mysore, to A. Rangaswami Iyengar, Esq., B.A., B.L., Revenue Commissioner in Mysore, Bangalore.

I have the honor to forward herewith my review on the working of the Treasuries n the Province for the year 1907-08 together with the statements usually appended to it, or incorporation in your report to be submitted to Government.

2. Statement A shows in a tabular form the chief defects observed in the course of examination of the Treasury accounts and their accompaniments, and in the audit of bills paid at the Treasuries, for which the Treasuries in some cases, and both the disbursing and Treasury Officers in others, are responsible. The delay in the submission of accounts s also shown in this statement. In Statement B the figures in Statement A are compared with those in the same statement for the previous year. As the figures in columns (5) and (8) for the past year include the objection slips which were sent to disbursing officers and the irregularities for which they alone were responsible, a comparison of the figures n these columns for the two years will not correctly represent the real situation. As this s the first report in which these objection memoranda and irregularities for which the disbursing officers (and not the Treasuries) are responsible, have been eliminated, the comparison will be complete in the reports for the next and succeeding years. The delay in the submission of the lists of payments and cash accounts is shown in detail for each month n Statement C, and the delay in the transmission of the annual returns in Statement D. The delay in the return of the objection statements sent to the Treasuries is separately shown in Statement E. The names of the officers who were in charge of the Treasuries during the year under review, are given in Statement F.

3. *Lists of payments and cash accounts.*—The delay in the submission of these lists and accounts, repeatedly noticed in the previous years' reports, has again to be mentioned here. It was expected that the stringent orders of Government on these reports and the Revenue Commissioner's instructions in the matter would have had some effect. But there has hardly been any improvement. The delay in the despatch of the cash accounts has, on the other hand, increased in all the districts except Chitaldrug, where it is stationary, and in Kolar, which is the only district which has made an attempt to minimise delay. Shimoga which sent the cash accounts on the due dates successively for the past three years, has failed to maintain its wonted punctuality. Though the delay on the average is only one day, the actual delay has varied from one to four days. The delay in the transmission of the lists of payments has increased in almost all the districts, noticeably in Kolar, Tumkur and Mysore. The fact that in some of the districts it is stationary, as, for instance, in Bangalore, or that it is slightly less, as in Hassan, does not reflect any credit, as the period of delay is long and therefore unsatisfactory. The delay in the Mysore District, which is 15 days for the second list of payments and 21 for the first list, calls for special notice. The actual delay in the former district has gone up to 29 days. The period of warning seems to have elapsed in this matter and some action on the part of Government to show their displeasure

Land Revenue, dated 18th May 1909.

for the failure of the officers in charge to realize their responsibility seems to be called for if any real improvement is to be effected.

4. The necessity for the submission of these lists and accounts on the prescribed dates has been repeatedly pointed out, and I need not reiterate what has been stated. Upon their timely submission depends the closing of the classified abstracts for each district and the consolidation of the accounts of the Province for each month in this office, and the transmission of the monthly returns and other periodical statements to Government and Heads of Departments on the due dates. The delay of even a single day in their despatch dislocates work both in my office and the offices which depend upon me for the timely preparation of their departmental accounts and reports. The adoption of energetic measures for securing the punctual submission of the lists of payments and the cash accounts, is therefore very essential, and I beg the matter may receive the attention it deserves.

5. As the considerable delay which occurs in the receipt of these lists and accounts does not enable me to compile the preliminary statement of receipts and expenditure and the revenue statistics which have to be submitted to Government on the 12th and 25th of the month following that to which they relate, and as the value of these returns, if sent after the due date, is completely lost, I have been obliged to ask the Deputy Commissioners in the Treasury Department to send me from the current month a statement of receipts by major heads on the 5th of each month in advance of the Treasury cash accounts. If the Treasuries send cash accounts in time, I will not require a separate statement of receipts except in times of scarcity like the present, when we have to watch more closely the progress of revenue and adopt measures in time to meet any unforeseen financial exigencies.

6. *Vouchers and subsidiary returns.*—These should, under Article 326 of the Civil Account Code, be forwarded with the lists of payments and the cash accounts respectively. The average number of vouchers and statements which were not received on the due dates with the monthly cash accounts is shown in coulmn 4 of Statements A and B. There is perceptible improvement in Kolar, though the figure still stands at 7, fair progress in Shimoga, and stagnation in other districts. The number of belated returns in Mysore stands at the high figure 108.

7. As no payment can be made without a voucher, which should therefore necessarily accompany the list of payments in which it is charged, it is inexplicable why some of these are held back. The matter requires investigation.

8. In this connection I may observe that the cash accounts and the lists of payments received from the Mysore District are invariably full of errors and omissions, and there was not a single month in the year under report in which either the list of payments or the cash accounts or both were not returned for correction or reconciliation of differences and discrepancies. An idea of the perfunctory manner in which these lists and accounts are prepared and the irregularities which are common in this Treasury, may be formed from the following which I have selected at random from the objection books of this office :—

(1) New heads are opened without the orders of the Comptroller, *e.g.* "Cemetery Fund" in August 1907.

(2) Allotment of local cesses not correctly made in any month.

(3) Errors in the totalling of the "Cash" and "Transfer" columns *vide* page 11 of the accounts for September 1907.

(4) Errors in the totalling of the "Cash" and "Transfer" columns in October 1907, under "XV Scientific and Minor Departments" in the cash accounts for February and also May 1908.

(5) Amount wrongly classified under "Damodar Das Charity Fund" instead of under "Muzrai Funds" (general).

(6) Difference between the cash accounts and the subsidiary statements (general).

(7) When corrections are proposed in the Treasury accounts, revised subsidiary statements are not sent unless called for (general).

(8) Errors in totalling the list of payments, *e.g.*, second list for November 1907. This is very common in this Treasury.

(9) The same voucher is repeated, *e.g.*, No. 142 for October 1907.

(10) Several vouchers are clubbed together and the total only charged in the list.

(11) Vouchers are sent for portions of amounts only in the case of *potgi* bills, *e.g.*, voucher No. 860, for October 1907, Nos. 876½, 926 and 927, for September 1907, Nos. 593, 595, 599, 615, 822, 616¼, 735½ and 736½ for May 1908, and Nos. 790, 810, 869, 937 and 1075 for June 1908.

(12) The following numbers have been omitted in the list of payments :—608, 626 and 693 for May 1908; 306, 459, 471, 989, 998 and 1073 for June 1908.

(13) Two vouchers having the same number, *viz.*, 1023 for February 1908, for Rs. 125-14-8 and Rs. 61-12-0, were received, though in the list of payments Rs. 125-14-8 alone was charged.

(14) Amount charged in the list of payments against voucher No. 29 for June 1908, is Rs. 122, while the amount of the bill is Rs. 120.

(15) The following vouchers were not received with the lists of payments, and when they were received, the following differences were noticed :—

Voucher No.	As per list of payments	As per voucher	Difference
938 for June 1907	5,472 0 4	5,462 0 4	10 0 0
1128A for July 1907	1,932 14 9	1,932 11 9	0 3 0
930 for September 1907	41 8 0	30 0 0	11 8 0

9. An idea of the delay in sending the wanting vouchers may be gleaned from the list of vouchers noted in Statement G, none of which have been received up to date. The Statement H showing the dates of receipt of the vouchers relating to the previous years is also appended.

10. It has been pointed out in the previous reports that the delay in the receipt of the subsidiary returns retards the closing of objection books in this office. These returns are not only sent very late, but are generally written up very imperfectly. In the statements of sums credited to "Advances recoverable" the numbers of the vouchers on which the original advances were drawn are frequently omitted and the nature of the advance and the officers who drew the advance are not clearly noted. The issue of necessary instructions to the Treasuries for supplying these omissions and for despatching *all* the subsidiary returns with the cash accounts, so that the objection books in the Treasury Account Department of my office may be closed simultaneously with the district classified abstracts, is very necessary.

11. *Annual returns.*—There was delay in the despatch of these returns also as will be seen from Statement D. The delay varies from three days to upwards of as many months and some of the returns from the Mysore District were not received even six months after the due date.

12. *Objection statements.*—The delay in the return of these statements with reference to each list of payments is shown in Statement E. These should, under Article 15 of the Civil Account Code, be returned to this office within a week of their receipt in the Treasury. But no Treasury has been adhering to this rule though the Treasury Officer's attention is invited to it in every out-going objection statement by its being printed in bold red type on the facing sheet. I shall not lengthen this report by setting forth in detail the very unsatisfactory state of things revealed in Statement E or by comparing the figures with those of last year. Such a comparison is perfectly useless when the period of delay extends to months. The objection statements of the Hassan District for October and the succeeding months of the year under report have not yet been returned, and none of the objection statements of the Tumkur District for the year have been returned up to date. In reviewing the report on the working of the Treasuries for 1903-04, Government had distinctly ordered that these statements should be returned to this office within a fortnight of their receipt in the Treasury, but these instructions practically remain a dead letter.

13. *Items objected*: *Miscellaneous*:—The nature and the number of items objected to during the course of audit of bills paid at the Treasuries are shown in columns 6, 7 and 8 of Statements A and B. The general decrease in the number of these objections is due to better check and scrutiny in the Treasuries. The unusually large number of objections which my office had taken in the preceding year which was adverted to in the report on the working of the Treasuries for that year, has had, I am glad to say, a wholesome effect. The increase in the number of objections in the Tumkur District, is due to close scrutiny in this office and I expect this district will also follow suit next year.

Land Revenue, dated 18th May 1909.

14. In regard to the requisitions for correction of the accounts proposed by the Treasury Officers, I beg to invite your attention to my letters Nos. 2526—T. A. D. Gr. II. 747 and 2628—T. A. D. Gr. II. 235, dated the 5th and 9th November 1908, and to point out that the Treasuries do not embody the corrections in the Treasury accounts then and there as instructed in this office Circular No. 2059—T. A. D. Gr. I. 390, dated the 14th October 1904 (a copy of which I enclose for ready reference) but allow them to accumulate till the year is closed and ask this office to make the corrections in the accounts for June final. The object with which the circular was issued is thereby not only entirely frustrated but also unnecessary work is thrown on this office by swelling the number of transfer entries by means of which the corrections proposed have to be made. I have also pointed out in the above communications that these corrections are proposed after the expiration of the period prescribed in my circular instructions to Heads of Departments when it is too late to embody them in the accounts for June final.

15. *Concluding remarks.*—The only remedy I could suggest for the defects and drawbacks pointed out every year in these reports is to bring home personal responsibility on the officers in immediate charge of the Treasuries, and this will not be possible so long as there is a constant change of officers holding charge of the Treasury. From Statement F appended to this report I find that as many as six, seven, and even eight officers have held charge of one and the same Treasury during the space of short twelve months. I should not therefore be surprised at the extraordinary delays and Treasury irregularities so frequently adverted to in these reports. Under the existing circumstances, with the constant shifting of Treasury Officers, it can hardly be expected that the presiding officer of the Treasury for the time being will have any incentive to set right the irregularities of his Treasury or to improve its efficiency. The root of the evil, in my opinion, lies here, and it is to this the general inefficiency of the Treasuries in the Province is mainly attributable. I would therefore suggest that an Assistant Commissioner should be kept in charge of one and the same Treasury for not less than three years, and I commend the matter for the consideration of Government.

Letter No. 2429—710, dated 30th October 1908, from the Comptroller to the Government of Mysore, to the Revenue Commissioner in Mysore.

I have the honor to acknowledge receipt of your letter No. 2651, dated 24th August 1908, *re* the improvement of the personnel of the Treasury Department. I have very carefully considered the proposals made in your letter No. 11089, dated 8th April 1908, to Government, and I regret I cannot agree to them for the reasons stated below.

I may here state at once that it is objectionable on principle to introduce a system which will regularly bring the Treasury staff into contact with the officials of the Audit office for the obvious reason that the chances of collusion are thereby increased. It is decidedly inexpedient that the Treasury clerks should know the exact process through which the exact extent to which and the exact machinery by which their work will be checked and tested in the Audit office. In this connection I may also refer you to the concluding remarks in the report on the working of the Treasuries for 1903-04 submitted by one of my predecessors in office to Government, in which a proposal similar to the one now made by you was suggested but it did not apparently meet with the approval of Government for the reasons stated above.

The duties appertaining to a Treasury have little in common with the duties appertaining to an Audit office, and I do not therefore see that any useful purpose would be served by the District Treasury accountants being deputed for work in this office or the accountants of this office being sent to the Treasury.

The recurring defects and drawbacks such as the delay in the submission of the cash accounts, the lists of payments and the subsidiary returns, the omissions in them, the incompleteness of the vouchers, etc., are all pointed out in the objection statements and memoranda periodically issued by this office, and all that the Treasury need do is to take steps to remove these irregularities. From the reviews of the working of the Treasuries for the past five years it will be seen that little or no attempt is made in this direction. The major portion of the work of the Treasury is mechanical, and what is necessary to improve its efficiency is to secure *punctuality* and *correctness* in the receipt of returns and documents from the Sub-Treasuries and in the transmission of those sent to this office and to faithfully carry out the instructions of this office. It seems to me that a marked improvement in the working of the Treasuries will result if proper care is taken in the selection of Treasury hands, only men who have passed the Accounts Test being taken in. Suitable steps should also be devised for promptly inflicting substantial punishments on those responsible for errors, omissions and delays reported by this office. A greater closeness of supervision on the part of officers in charge and a little more strictness will, I venture to think, go a great way in improving matters.

No. R. 9595-604—L. R. 300-08-2, DATED BANGALORE, 18TH MAY 1909.

ORDER THEREON.—Recorded.

2. The delay in the submission of the lists of payments, vouchers, cash accounts and annual returns and in the return of objection statements and the occurrence of errors and omissions therein, pointed out by the Comptroller, clearly indicte that there has not been much noticeable improvement in the working of the Treasuries, notwithstanding the warnings conveyed by Government in this respect from year to year. This is very discreditable to the officers who were in charge of the Treasuries during the year and to the Deputy Commissioners who are responsible to Government for efficient district administration. All Treasury Officers should be distinctly given to understand that they will be held personally responsible for the regular and punctual submission of accounts and returns, and for bringing to the notice of the Deputy Commissioner from time to time for necessary disciplinary action any bad work or delay on the part of Sub-Treasuries. At the same time, the Treasury Head Accountant and other officials should also be made responsible for the due observance of the rules contained in the Civil Account Code and strict adherence to the instructions issued by the Comptroller from time to time in regard to the punctual submission of the lists of payments, accounts and returns and for their accuracy and completeness. Deputy Commissioners and Treasury Officers should take prompt and severe notice of inefficient work in the District Treasury. Incompetent officials, if any, should be transferred to other suitable appointments or otherwise dealt with, even by dismissal, if necessary.

2. In particular, Government would invite the attention of the Deputy Commissioner of the Mysore District to the defects pointed out in para 8 of the Comptroller's report. The Mysore District Treasury was in charge of one officer Mr. Sundararajiengar throughout practically the whole of the year 1907-08, and the numerous shortcomings pointed out in the work of the Treasury indicate an extremely unsatisfactory state of affairs. The Deputy Commissioner should institute a special enquiry into the working of the Treasury and take adequate steps to improve it.

3. The personal attention of the Deputy Commissioners of Tumkur, Kolar, Kadur, Chitaldrug, Mysore and Hassan is drawn to the non-return of objection statements referred to in para 12 of the Comptroller's report.

4. Government consider the suggestion that all officials employed in the Treasury should have passed the Accounts Examination a good one and commend it to the Revenue Commissioner and the Deputy Commissioners for strict observance.

5. The recommendation of the Comptroller and the Revenue Commissioner that no officer placed in charge of a Treasury should be changed for at least three years, is noted.

6. The Comptroller is requested to prepare in consultation with the Revenue Commissioner a District Treasury Manual for the guidance of Treasury officials.

Proceedings of the Government of His Highness the Maharaja of Mysore,

BEFORE THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Appeal No. 49 of 1908-09.

Appellants.

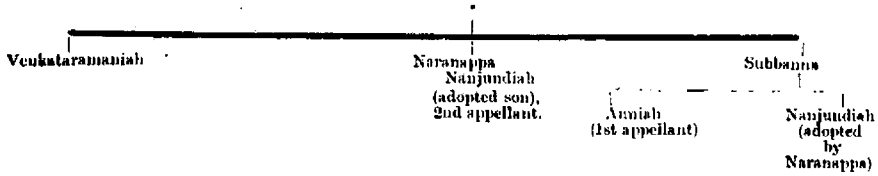
1. Anniah, son of Subbanna, residing at Nekkundi village, Chintamani Taluk.
2. Nanjundiah, adopted son of Narnappa, brother of Subbanna, residing at Dodganjur village, Chintamani Taluk.

Subject.

Appeal against the order of the Deputy Commissioner, Kolar District, declining to sanction the mutual transfer of the barawards of the shanbhogi offices of Nekkundi, Dodganjur and Kariyapalli firkas, Chintamani Taluk, between themselves, as prayed for by them.

Facts of the case.

The relationship of the appellants is shown in the following genealogical tree.



Prior to the year 1880, Venkataramaniah was the shanbhog of the four villages shown in the margin, which were at the Potgi Settlement formed into three shanbhogi charges. After his death without any issue, his brother Naranappa succeeded to the shanbhogi office of Nekkundi firka, and another brother Subbanna to that of the other two firkas. After the death of Naranappa, his adopted son, Nanjundiah (2nd appellant), was registered as shanbhog of Nekkundi firka, but being then a minor, his uterine brother Anniah (the 1st appellant), was permitted to look after the duties of that firka, while Subbanna continued to be in charge of Dodganjur and Kariyapalli firkas. Subbanna having died about the year 1903-04, his son Anniah, who was till then in charge of Nekkundi firka registered in the name of Nanjundiah, continued to discharge the duties thereof. Anniah, however, has been since then looking after the duties of Kariyapalli firka in addition, while Nanjundiah is looking after the duties of Dodganjur firka. Thus, Nanjundiah, though registered as barawarddar of Nekkundi firka, has been living at Dodganjur and attending to the duties of that firka, and Anniah is living at Nekkundi and discharging the shanbhogi duties of Nekkundi and the adjoining Kariyapalli firka.

Charge villages	Potgi. Rs. a. p.
I. Nekkundi ...	58 8 0
II. Dodganjur and Cheemanahalli ...	77 8 0
III. Kariyapalli ...	25 4 0

When effect had to be given to the Government Order requiring shanbhogs to reside in their own firkas, Nanjundiah and Anniah were directed to reside within the circles of which they were the registered shanbhogs. They urged thereupon that as it would cause great hardship to them if they were compelled to change their places of residence, they might be permitted to interchange the offices and make a mutual transfer of the barawards. The Amildar thereupon recommended that Nekkundi and Kariyapalli charges might be registered in the name of Anniah and that of Dodganjur in the name of Nanjundiah as prayed for by them, as there was no administrative inconvenience in such a course and that, as agreed to by Anniah, he would arrange for the shanbhogi office of Nekkundi being filled up by Anniah himself and that of Kariyapalli by the nominee of Anniah. The Assistant Commissioner, however, in his order dated 21st April 1907, declined to accede to the request, and on appeal the Deputy Commissioner affirmed the Assistant Commissioner's order. Hence the present appeal to the Revenue Commissioner, which has come up for disposal by Government, having been withdrawn from the file of the Revenue Commissioner under Section 210 A of the Land Revenue Code.

Decision.

The appellants were heard on the 4th May 1909. They both belong to the same family and are agreeable to the transfer of the shanbhogi barawards between themselves. In fact, they have been for a long time discharging the duties of the shanbhogi offices of which the barawards are now sought to be transferred to their respective names. This arrangement will satisfy the requirements of the order of Government requiring shanbhogs to reside in

Land Revenue, dated 20th May 1909.

their own firkas, while at the same time the performance of the duties as at present will remain undisturbed. Under the circumstances, Government fail to see why the prayer of the appellants should not have been granted and accordingly direct that, in reversal of the Deputy Commissioner's order, the exchange of barawards prayed for by the appellants be allowed.

Copies of the above decision are forwarded (1) to the Revenue Commissioner in Mysore for information, (2) to the Deputy Commissioner, Kolar District, together with the records received with his letter No. 4466-274, dated the 15th January 1909, addressed to the Revenue Commissioner, and (3) to the Superintendent, Mysore Revenue Survey, for information.

R. 214-08-5, dated the 10th April 1909, directing the annual inspection of river channels by Amildars and Deputy Amildars as soon as the cultivation season is over with a view to ascertain for intimation to the Public Works Department what repairs are required, and the execution of the necessary repairs by the Public Works Department at least one month before water is actually let into the channels for irrigation.

READ—The following letter No. 3088, dated the 20th April 1909, from the Chief Engineer of Mysore :—

" I have the honour to acknowledge the receipt of Government Proceedings No. R. 8297-8—L. R. 214-08-5, dated the 10th instant, directing that, as soon as the cultivation season is over, the Amildars or Deputy Amildars will arrange to inspect the river channels with the local Public Works officers, in company with some of the principal raiyats, and note what repairs are required, and that the repairs will be carried out as early as possible by the Public Works Department during the off season, at least a month before it is necessary to let down water into the channels, etc.

" 2. In regard to the above, I have to point out that it will be impossible to adhere to the procedure laid down as the channels are handed over for annual clearance for only three months or less, which length of time is in itself insufficient in some cases for the efficient carrying out of repairs, especially in some river channels which are to be kept open for ten days in each month, to let down water for sugar-cane."

CAMP No. 20-30, DATED CAMP MYSORE, 30TH MAY 1909.

ORDER THEREON.—In consideration of the exceptional conditions of the year Kilaka (1908-09), the following orders in regard to remissions and suspensions of the Land Revenue for that year are issued for information and guidance of all concerned in lieu of those contained in the Government Proceedings above cited :—

1. *Assessment on lands classed as wet.*—On lands classed as wet under whatever source of irrigation, on which the wet crops have in the year Kilaka (1908-09), totally failed or the outturn is not more than 25 per cent of a normal crop (*i.e.*, not more than 4 annas out of a normal 16 annas), one-half of the assessment shall be remitted and the other half shall be collected.

2. For occupied waste within the tract the same rate of remission shall be given as for land on which the crops totally failed. But no remission is to be given on "mamool waste," that is to say, on occupied land which is not cultivated regularly in a normal year and which it may be presumed would have been left uncultivated even if the season had been normal.

3. Where dry crops may have been raised with or without the aid of Sirkar water on land classed as wet, the same concession as in para 1 shall be granted, but the average rate of dry assessment prevailing in the village shall also be levied on the land on which dry crop has been raised. The plots need not be measured, but an entire survey number or a recognised share of a survey number shall be treated as a whole. If the dry crop entirely failed, this additional dry crop charge need not be imposed.

4. *Assessment on lands classed as dry.*—On lands classed as dry where the dry crops have totally failed, or their outturn was not more than 25 per cent of a normal crop (*i.e.*, not more than 4 annas out of a normal 16 annas), one-half of the assessment may be suspended and the other half collected.

5. Lands classed as dry on which a water rate is separately levied for the use of Sirkar water without its being incorporated with the wet assessment, shall receive the same treatment as lands classed and assessed as wet.

6. *Assessment on lands classed as garden.*—Where lands classed as Bagayet are usually cultivated with wet crops, the same treatment shall be accorded as above prescribed for lands classed as wet.

7. Where there has been a great loss of arecanut or cocoanut trees or of their produce, the Deputy Commissioner, for reasons to be recorded, may suspend the collection of one-half of the assessment.

8. *Local cesses.*—It should be distinctly understood that remissions of Local cesses do not follow on remissions of assessment. They should invariably be collected on the entire assessment as usual) including the portion of the assessment that is remitted), a postponement being alone permissible in special cases in which the Deputy Commissioner may consider this concession necessary.

Proceedings of the Government of His Highness the Maharaja of Mysore,

9. *Minor Inam lands.*—The foregoing orders in regard to suspensions and remissions of revenue are applicable also to minor Inam lands charged with full assessment or with a quit-rent or jodi equal to or more than the full survey valuation.

10. *Whole Inam villages.*—They are applicable also to lands in whole Inam villages under Government management.

11. *General remarks.*—Jamabandi officers should be careful to see that all remissions granted under these rules are well notified and entered in the Raiyats' Putta Books.

12. Remissions are to be granted for villages and homogeneous tracts taken as a whole. The concession (whether remission or suspension of revenue) should be regulated with regard to the outturn of the crop and not with reference to the circumstances of the raiyat owning the land.

13. In individual cases the Deputy Commissioner or Sub-Division Officer will be justified in refusing remission where the moiety to be collected is not punctually paid in due time.

14. The foregoing instructions will have force only in the following areas.—

Letter No. 75, dated 5th February 1909, from the Superintendent, Mysore Revenue Survey and Settlement, submitting the annual progress report of the Revenue Survey Department for the year which ended on the 31st October 1908.

No. R. 9737-46—L. S. 32-08-2, DATED BANGALORE, 22ND MAY 1909.

ORDER THEREON.—During the survey year which ended on 31st October 1908, as in previous years, the bulk of the work done by the Survey Department consisted of partial re-survey, on which three measuring and one classing establishments were employed. The measuring operations, particulars of which show a material increase in the out-turn of work during the year, were carried on in the Bangalore, Tumkur and Hassan Districts and the area dealt with consisted of 798 villages containing 64,810 fields measuring 5,99,754 acres, against 763 villages with 56,780 fields measuring 5,68,107 acres in the previous year. The work of re-classification of water-supply shows a slight decrease owing to the late commencement of work and the absence of co-operation from villagers. It was carried out in the Shimoga and Honnali Taluks, as they stood at the original settlement and extended over 436 villages comprising 16,838 fields and 93,247 acres. In gauging the progress of the work of the Survey Department, Government are, of course, aware of the danger of any purely numerical comparisons and are quite willing to make allowance for the various disturbing factors such as the nature of the country dealt with, the unhealthiness of the climate and so forth referred to in para 5 of the report. They note with satisfaction the assurance of the Superintendent that both the officers and the establishments have, on the whole, worked zealously and endeavoured to turn out the maximum amount of work compatible with efficiency, though there is an appreciable unexplained deficiency in the testing work done personally by the officer in charge of the A. Establishment (para 9 of the report).

2. The total cost of the Department for the year under report was Rs. 1,56,901-7-4 or Rs. 16,664-1-6 less than that for the previous year, the cost per acre being Re. 0-3-6 against Re. 0-3-9 in the previous year.

3. The Superintendent of Survey is requested to report why the system of examining the effects on wet and garden cultivation, during re-classification, of altered conditions of water-supply, said to have been introduced into the semi-malnad taluks, should not be extended to the malnad parts of the State, as, in the light of the experience now acquired in the revision settlement of the malnad taluks already dealt with, there does not seem to be much ground for the supposition that this factor remains constant in the case of such lands in the malnad.

4. Two causes are stated to have greatly impeded the progress of the work, *viz.*, the apathy of the villagers and the condition of the boundary marks. Both these causes constitute a standing reproach on the officers of the Revenue Department concerned, and it is high time that individual Amildars and Assistant Commissioners were brought to book for neglect of their duties in regard to boundary marks. The proposals foreshadowed at para 8 of the Survey Superintendent's report are awaited. Government note that Mr. Venkatramaiya, Amildar of Shimoga, took special interest in overcoming the indifference of the raiyats in his taluk and that the bandhs in the Gubbi and Nelamangala Taluks were found to be in a much better condition than in the other tracts hitherto surveyed.

5. The Revenue Commissioner's attention is invited to the remarks of the Survey Superintendent at para 21 of his report regarding measurers lent to the Revenue Department who have to be sent back.

6. The Department has been maintained at the usual standard of efficiency.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

The following correspondence regarding the demarcation of the water-spread of the Kandukur-Vyasasamudram tank in the Cuddapah District :—

(1) Letter No. 2122, dated 10th April 1905, from the First Assistant to the Hon'ble the Resident in Mysore.

It has been reported to the Madras Government that when the demarcation of the water-spread of the Kandukur-Vyasasamudram tank in the Cuddapah District was being carried out, the stones that were fixed along the portion of the water-spread in the Mysore State were removed by the officials of the Chilur firka of that State.

2. At the instance of the Government of Madras, I am directed to request that, in case it should be found necessary in demarcating the water-spread of the tank to fix stones in the Mysore State, the Durbar will be so good as to permit such work being done, and to issue the necessary instructions to the local officials not to interfere with the stones that may be fixed.

(2) Docket No. 10135—L. S. 54-04-2, dated 18th April 1905, to the Deputy Commissioner, Kolar District.

In forwarding herewith a copy of a letter No. 2122, dated the 10th April 1905, from the First Assistant to the Hon'ble the Resident in Mysore, stating that the stones fixed along the portion of the water-spread of the Mysore State, when the demarcation of the water-spread of the Kandukur-Vyasasamudram tank in the Cuddapah District was carried out, have been removed by the officials of the Chilur firka of that State, etc., has the honor to request that a detailed report on the subject after a personal inspection of the locality and enquiry into the matter may be submitted together with a sketch plan showing the different boundaries at a very early date. The connected records, if any, on the subject should also be submitted.

(3) Letter No. 6243—592, dated 13th May 1905, from the Deputy Commissioner, Kolar District.

Adverting to your docket No. R. 10135—L. S. 54-04-2, dated 18th April 1905, forwarding copy of letter No. 2122, dated 10th idem, from the First Assistant to the Hon'ble the Resident in Mysore, stating that the stones fixed along the portion of the water-spread in Mysore State when carrying out the demarcation of the Kandukur-Vyasasamudram tank in the Cuddapah District, had been removed by the officials of the Chilur firka, etc., I have the honor to state that I deputed the District Surveyor to prepare a sketch after inspecting the spot and examining the demarcation stones fixed by the British authorities to show the water-spread of the tank in question. He has accordingly submitted a sketch with a memo explaining the actual state of things as observed on the spot. These will be found in the enclosed file of papers.

The District Surveyor's sketch and memo disclose the following facts :—

Part of Survey No. 58 of Chilur village, Bagepalli Taluk, forms part of the water-spread of the Vyasasamudram tank, which extends towards the east in the territories of the Madras Government. The lands of Nimakayalapalli and Chelur villages of the Bagepalli Taluk lie on the other three sides. The red line in the sketch shows the demarcation of the water-spread of the tank. At the points marked thus □ along the demarcation line towards Nimakayalapalli village boundary, stones bearing the mark "P. W." have been fixed. These stones are intact and at the points originally fixed and have not been interfered with in any way. As the demarcation line runs through Survey Nos. 7 and 16 of Nimakayalapalli, portions of these lands also come under water-spread. It would appear that the stone fixed at the point ○ was changed and placed at□ in Survey No. 16, by the authorities themselves.

According to the demarcation line portions of Survey Nos. 62 and 63 of Chelur village also come under the water-spread. Along the demarcation line towards Chelur boundary small square pits have been dug at points marked thus o and at points marked. loose stones bearing the mark "P. W." have been placed in pits, but they have not been fixed. There are no signs that the stones thus placed have been removed. At the points marked "o" there are some holes which look like pits probably dug to fix the stones. It cannot be made out that they are pits dug for the purpose. As the fixing of stones along the demarcation line towards Chelur is still incomplete, the correct boundary cannot be given.

The villagers of Chelur made a statement before the Surveyor, in which they said that none of the villagers removed the stones fixed to demarcate the water-spread, that only pits had been dug and no stones fixed on the line towards the boundary of their village. that the stones fixed on the line towards Nimakayalapalli were intact, that about five or six months back when the raiyats of Chelur and Hosahudya began to scrape grass in Survey No. 58 of Chelur (tank bed) the contractor threatened them and demanded two and four annas for each "Chakare" (instrument for scraping grass) which some of them paid under protest and

obtained receipts therefor, that as it was made the subject of a complaint, the hobli shekdar instituted an enquiry and took the statement of the contractor who, however, refused to sign it, and that in order to bring a counter complaint against the raiyats, he might have reported that stones had been removed by them, and there was no truth in the allegation.

As I learnt that the Chelur shekdar had reported the matter to the Taluk Office, I called for the correspondence.

File marked A.—The patel of Chelur reported to Chelur shekdar on 26th January 1905, enclosing an order of the Madras Public Works Department Overseer which he received on 24th January 1905 and stating that contractor Ramiah was fixing stones on the Chelur and Nimakayalapalli boundaries including in the water-spread even lands under occupation, that he (patel) had not received orders from the Mysore Government, and that the contractor requested him not to interfere with the stones and not to allow cattle to graze in the tank bed.

The shekdar thereupon submitted his report No. 367, dated 28th January 1905, to the Taluk Office, together with the statement of contractor Ramiah. The shekdar stated that the contractor informed him that he had fixed the stones as pointed out to him, and that he refused to sign the statement taken down at his dictation.

File marked B.—This is a petition dated 30th January 1905, sent to the Taluk Office by the residents of Chelur. They represented that their cattle had been prevented from grazing in the portion of bed demarcated with stones by the contractor, that he had threatened them and levied something from them in order to profit himself, that the shekdar had enquired into the matter and submitted a report to the Taluk Office, that subsequently the contractor began to dismantle the brick and mortar work alleging that the work done was not substantial, and that as he did not interfere with the marks of unoccupied lands but only those of lands under occupation they suspected something wrong and feared that they should be blamed eventually.

File marked C.—This is report No. 405 dated 4th February 1905 of Chelur shekdar. He stated that on the 26th January 1905, while he was engaged in inspecting the portion of tank bed applied for by Papiga for growing melons, Venkataramaniah and others complained to him that they had been from a long time scraping grass in the tank bed, that contractor had threatened them and levied Re. 0-2-0 and Re. 0-1-4 and produced three receipts given to them by the contractor, that on enquiring the contractor, he admitted having received the amount and given the receipts produced, and said he had orders from his Overseer to recover fees for scraping grass in the tank bed, and that he went away without signing the statement pleading some excuse. The shekdar forwarded the Mahazar drawn up on the occasion, three receipts and the unattested statement of Ramiah to the Taluk Office.

It may be remarked here that the three receipts are only permits allowing the raiyats mentioned in them to scrape grass in the tank beds for some months. No mention is made of any amount having been paid or received.

File marked D.—This is a petition of contractor Ramiah which was received in the Taluk Office on 10th February 1905. He stated that the shekdar, patels and others sent for him and asked him to fix stones at the points shown by them and that on his telling them he would only fix at the places shown by his superiors and refusing to comply with their request they instigated some of the raiyats to complain that he had received bribes to allow the scraping of grass in the tank bed, and that he had been blamed by the raiyats for nothing. The Taluk authorities gave no attention to these reports and petitions, and took no steps whatever. The Amildar could have enquired into the matter and submitted a report to the higher authorities.

From the foregoing, it is clear that the stones fixed at the Nimakayalapalli village boundary are intact and have not been tampered with, that only pits have been dug but no stones have been fixed at the Chelur boundary, and that the present allegation that stones have been removed by the Chelur officials has no foundation whatever. I am inclined to think that the allegation is the outcome of the complaint of the villagers against the contractor for his having received some money for allowing them to take grass from the tank bed. This the Chelur raiyats apprehended so far back as January 1905, *vide* their petition marked *B*.

To put an end to such complaints, I would suggest that the area to be included in the water-spread of the tank be decided upon once for all and properly demarcated, in the presence of responsible officers of both Governments and the rights of the villagers settled.

I would have enquired into the matter myself, but I received your reference long after I left Chelur and I requested the Assistant Commissioner to inspect the spot and make a report. He is busy with Jamabandi work and has not yet been able to visit the place.

The vernacular records connected with the case are herewith submitted for reference and obliging return.

(4) Docket No. 12124—L. S. 54-04-4, dated 6th June 1905, to the Revenue Commissioner in Mysore.

In forwarding herewith the marginally noted correspondence (in original to be obligingly returned when done with) *in re* the removal of stones fixed along the portion of the water-spread of the Kandukur-Vyasasamudram tank in the Cuddapah District, when its demarcation was carried out, has the honor to request him to be so good as to submit a report in the matter at an early date.

(1) Letter No. 2122, dated 10th April 1905, from the 1st Assistant to the Resident in Mysore.
(2) Letter No. 6243—592 dated 13th May 1905 from the Deputy Commissioner of the Kolar District.

A sketch map showing the exact condition of the boundary marks of the water-spread in question is also herewith enclosed for reference and obliging return.

(5) Letter No. 3086, dated 22nd September 1905, from the Revenue Commissioner in Mysore.

With reference to your docket No. R. 12124—L. S. 54-04-4, dated 6th June 1905, regarding the alleged removal of demarcation stones fixed along the water-spread of the Kandukar-Vyasasamudram tank in the Cuddapah District, I have the honor to forward herewith for orders of the Government, letter No. 1335—89, dated 17th August 1905, together with its enclosures in original from the Deputy Commissioner, Kolar District, submitting Assistant Commissioner Mr. C. Rama Rao's letter reporting the result of his enquiry into the matter and stating that the charge of tampering with the stones against the Chelur village officials is the outcome of the complaint made by the villagers against contractor Ramiah for levying fees from grass-cutters.

The enclosures received with your docket under reply are returned herewith.

Letter No. 1335-89, dated 17th August 1905, from the Deputy Commissioner, Kolar District to the Revenue Commissioner in Mysore.

Adverting to your docket No. 10082, dated 10th June 1905, regarding the removal of stones fixed along the portion of the water-spread of the Kandukur-Vyasasamudram tank in the Cuddapah District when its demarcation was carried out, I have the honor to forward herewith in original, Assistant Commissioner Mr. C. Rama Rao's letter No. 68, dated 10th instant with its enclosures, reporting the result of his enquiry. This corroborates the report already made by me that the charge of tampering with the stones brought against the Chelur village officials is the outcome of the complaint made by the villagers against contractor Ramiah for levying fees from grass cutters.

The Assistant Commissioner reports that on examining the Survey papers, it is found that only Survey No. 58 measuring 200 acres and 14 guntas of the Chelur village has been set apart as kharab on account of the water-spread of the tank in question, and that no other record was made at the time of Survey Settlement. An extract of the Phut Pahani account has been filed with the record.

The enclosures received with your docket are herewith returned.

No. 68, dated 10th August 1905, from the Assistant Commissioner, Chikballapur, to the Deputy Commissioner, Kolar District.

With reference to correspondence ending with your reminder O. M. No. 46, dated 2nd instant, calling for a report on the result of my inspection and enquiry made regarding removal by the Chelur village officials of the stones fixed along the portion of water spread in the Mysore State of the Kandukur-Vyasasamudram tank in the Cuddapah District, I have the honor to state as follows :—

1. I inspected the locality on the 8th instant, following the proposed line of demarcation to show the water-spread of the tank. As shown in the sketch prepared by the District Surveyor, stones have been fixed int he ground at points marked □ along the line from Survey No. 6 to Survey No. 33 of the Nimakayalapalli village, and stones have been placed in pits at points marked ○ along the rest of the line up to the border of Survey No. 151 of the Chelur village. The work of demarcation appears to be still incomplete.

2. Of the lands belonging to the Nimakayalapalli village, Survey Nos. 6, 7, 9, 16, 17 and 18 are occupied, and Survey Nos. 8 and 21 are kharab. Of the lands in the Chelur village, Survey Nos. 61 and 63 are occupied and Survey No. 62 is assessed waste, while Survey No. 58 (kharab) forms the western portion of the bed of the tank in question lying within the limits of the Mysore State. On the frontier line to the east extending from the north-east corner of Survey No. 151 of the Chelur village to the south-east corner of Survey No. 6 of Nimakayalapalli, no new stones have been fixed and the boundary line is left intact. At the point marked X, the stone shown on the Mysore Revenue Survey map of the Chelur village exists. On examining the Survey papers, I find that only Survey No. 58, extent 200

acres and 14 guntas, of Chelur is set apart as kharab on account of the water-spread of the Vyasasamudram tank, and that this Survey number includes maji Nos. 4 to 38 and Nos. 307, 308, 309, 310, 311 part, 313 and 314. An extract from the Phut Pahani account is put up. There is no other record made on the subject at the time of the Survey and Settlement.

3. As regards the alleged removal of stones, I examined the shekdar, the patel, the shanbhog, gumastas, and the holders of the lands concerned. All of them state that they never raised any objections to the stones being fixed and that they did not meddle with stones after they were fixed. I see no reason to distrust their statements, for the stones appear to be at points where they were originally fixed or placed. If anybody should meddle with the stones at all, it should be the holder of Survey No. 16 of Nimakayalapalli, through which the line passes cutting off more than two-thirds of the number and including it within the water-spread area. In this number, there is a pit to the south at the point marked ○ on the sketch map. Kogara Rama, the holder of the land, says that the stone marked □, now fixed towards the north, had been originally fixed in the pit ○ and that it was subsequently removed by contractor Ramaiya and fixed more towards the north at the point where it now exists. This must have been the case undoubtedly, for, if the holder wanted to meddle with the stone, he would never have put it in its present position cutting off a larger slice of his land to be included within the line of water-spread.

4. Kogara Rama and four other raiyats holding Survey Nos. 16, 17, 7, 9 and 18 of Nimakayalapalli sent a petition to me also to the same effect as that alluded to with reference to the file marked B in para 4 of your letter No. 6243-592, dated 13th May 1905, to the Secretary. I sent the petition to the Amildar for report in continuation of the previous correspondence on the subject. By that time, the District Surveyor had been to the spot and made an enquiry into the matter. The petition and the shekdar's report (No. 583, dated 2nd June 1905, obtained from the Taluk Office) are herewith submitted.

6. From the enquiry made by me the allegation that the stones were removed by the officials of the Chelur firka appears to have originated from contractor Ramaiya as the Chelur shekdar sent for him and took down his statement, which he refused to sign, in the matter of levying fees from grass-cutters. The statements of the officials of the Chelur firka and of the holders of the lands concerned and extracts from the Khetwar showing the area and assessment of the lands are enclosed.

7. The Kanada records on the subject have already been dealt with in your letter No. 6243-592, dated 13th May 1905, to which I have nothing more to add.

8. The sketch and the original papers received with your docket No. 7174—5944, dated the 19th June 1905 are herewith returned.

(6). Pol. letter No. 373, dated 13th November 1905, to the First Assistant to the Hon'ble the Resident in Mysore.

Adverting to your letter No. 2122, dated the 10th April 1905, stating that it has been reported to the Madras Government that the stones fixed along the portion of the water-spread of the Kandakur-Vyasasamudram tank in the Cuddapah District, abutting on the Mysore territory have been removed by the officials of the Chelur firka of the Mysore State and requesting that necessary instructions may be issued to the local officials not to interfere with the boundary marks that may be fixed, I am directed to state that from local enquiry it has been ascertained that the officials of the Chelur firka have not removed any of the boundary marks and that the allegation made against them is the outcome of the complaint made by the villagers against contractor Ramaiya that he illegally levied fees for scraping grass grown in the bed of the Chelur tank.

2. All the stones fixed by the Madras Government except the one in Survey No. 16 of the Nimakayalapalli village, Bagepalli Taluk, are reported to be in their proper places. The stone originally fixed in Survey No. 16 at the point marked ○ in the accompanying sketch was removed further north by contractor Ramaiya and fixed at a point marked □, with a view to diminishing its area and increasing the water-spread of the tank.

Any demarcation of the lands comprised in the villages of this State should not, it is submitted, be made without reference to this Government. The Durbar will therefore be glad to be informed of the circumstances under which the demarcation in question was made.

(7). Letter No. 6387, dated 9th November 1906, from the First Assistant to the Hon'ble the Resident in Mysore.

I am directed to acknowledge the receipt of Mr. Venkatavaradiengar's letter Pol. No. 373, dated the 13th November 1905, regarding the demarcation of the water-spread of the Kandukur-Vyasasamudram tank in the Cuddapah District.

2. The Madras Government state that a case having occurred in which certain lands in the water-spread of a tank in the Krishna District had been assigned for cultivation by Revenue

Revenue (Land Survey), dated 29th May 1909.

authorities, without reference to the Public Works Department, directions were issued as a safeguard against such assignment of lands that the actual extent of water-spread of each tank at full tank level should be determined. It is reported that in pursuance of these orders, the Superintending Engineer, III Circle, sanctioned an estimate for demarcating the lands lying within the water-spread of the Kandukur-Vyasasamudram tank, but the local officers do not seem to have been aware of the fact that a portion of the water-spread of the tank lay in Mysore Territory. The Madras Government wish, however, to say that as desired by the Durbar, the demarcation of lands lying in the Mysore State will not be undertaken, in future, without reference to them.

(8) *Docket No. 5273—L. S. 32-06-2, dated 22nd November 1906, to the Revenue Commissioner in Mysore.*

Adverting to his letter No. 3086, dated the 22nd September 1905, forwarding for the orders of Government, the Kolar Deputy Commissioner's letter No. 1335—89, dated the 17th August 1905, submitting Assistant Commissioner Mr. C. Rama Rao's letter reporting the result of his enquiry *in re* the alleged removal of demarcation stones fixed by the Madras Government officers along the water-spread of the Kandukur-Vyasasamudram tank in the Cuddapah District, has the honor to request that he may be so good as to furnish this office with information at an early date on the following points:—

(*a*) Whether any portion of the Mysore Territory is included within the water-spread of the tank; if so, its extent; the survey numbers comprised within the area; their individual extents and assessment (if occupied) and the names of the villages, they are situated in and the circumstances under which they have been included.

(*b*) The extent of the several survey numbers included in the water-spread and cut off by the demarcation line.

(*c*) What the probable loss in revenue would be by the lands being included within the demarcation line.

2. A copy of the sketch map of the tank and the surrounding parts, showing the demarcation line, which was forwarded to this office with the Kolar Deputy Commissioner's letter No. 6243—592, dated 13th May 1905, may kindly be obtained and forwarded to this office for reference.

(9) *Letter No. 10769, dated 17th April 1909 from the Revenue Commissioner in Mysore.*

With reference to your docket No. R. 5273—L. S. 32-06-2, dated 22nd November 1906 calling for certain additional information *in re* the alleged removal of demarcation stones fixed by the Madras Government officers along the water-spread of the Kandukur-Vyasasamudram tank in the Cuddapah District, I have the honor to forward herewith letter No. 970—96, dated 25—27th August 1908, from the Deputy Commissioner, Kolar District, submitting copy of letter No. 521, dated 22nd June 1908, of the Sub-Division Officer, Chikballapur, with the Veracular records furnishing the information called for. It will be seen from the Sub-Division officer's letter that according to survey accounts, Survey No. 58 of the Chelur village measuring 200 acres and 14 guntas, is the only land treated as kharab on account of its liability to submersion that it was ascertained from local enquiry that certain other lands of Chelur and Nimakayalapalli villages also come under submersion when the tank is discharging and that the new stones having been fixed by the Madras Public Works Department apparently to show the water-spread of the tank at the kodi level, no action on our part seems necessary. He adds, however, that if the demarcation line adopted by the Madras Public Works Department was intended to show the extent to be reserved for tank bed, then it would cut off kharab and assessed lands to the extent of 159 acres and 11 guntas as detailed in the Sub-Division Officer's letter and that a loss of revenue amounting to Rs. 20-15-0 would result and that it would therefore be desirable to make a reference to the Madras Public Works or Revenue Department in the matter.

A copy of sketch map of the tank and its surrounding parts showing the demarcation line, is enclosed in the vernacular file.

No. 970—96, dated the 24th August 1908, from the Assistant Commissioner in charge of Kolar District, to the Revenue Commissioner, in Mysore, Bangalore.

Adverting to your letter No. 5571, dated 24th November 1906, and subsequent reminders calling for certain additional information as required in General and Revenue Secretary's No. R. 5273—L. S. 32-06-2, dated 22nd November 1906, for forwardal to Government in the matter of certain demarcation stones fixed by Madras Government officers in the water-spread of the Kandukur-Vyasasamudram tank in the Cuddapah District, I have the honor to submit herewith copy of Chikballapur Sub-Divisional Officer's letter No. 521, dated 22nd June 1908, which gives full particulars on all the points called for by Government, together

with the vernacular records ending with the Bagepalli Amildar's ittilla No. 1, dated 2nd July 1907.

A copy of the sketch map showing the demarcation of the water-spread of the tank in question is also herewith submitted as required by Government.

Letter No. 521, dated 22nd June 1908, from the Sub-Division Officer, Chikballapur, to the Deputy Commissioner, Kolar District.

Adverting to your office memo No. 3997, dated 1st December 1906, forwarding for report docket No. R. 5273—L. S. 32-06-2, dated 22nd November 1906, from the Secretary to Government to the Revenue Commissioner in the matter of certain demarcation stones fixed by the Madras Government officers in the water-spread of the Kandukur-Vyasasamudram tank, I have the honor to submit the vernacular records ending with the Bagepalli Amildar's ittilla No. 1, dated 2nd July 1907, which gives in sufficient detail information called for by Government.

Kandukur-Vyasasamudram is a large and deep tank built across the Papagni on its leaving Mysore territory and when the tank is full or nearly so, some of the lands situated on the outskirts of the tank bed and belonging to the Mysore State are brought under submersion. In the survey accounts, Survey No. 58 of the Chilur village, extent 200 acres and 14 guntas is the only land treated as kharab on account of its liability to submersion. I find on local enquiry that certain other lands belonging to Chilur and Nimakayalapalli villages also come under partial submersion when the tank is discharging, which occurs only very rarely. I have gone over the water-spread of the tank lying near the villages of Chilur and Nimakayalapalli at the last jamabandi and it appears to me that the new stones have been fixed by the Madras Public Works Department to show the water-spread of the tank at the present kodi level. There has been so far no attempt at restriction of cultivation within our boundaries and no action on our part appears therefore to be called for at the present stage. The Amildar's report gives in detail the survey numbers with their extents and assessments in the villages of Chilur and Nimakayalapalli, which would be cut off by the demarcation line adopted by the Madras Public Works Department if it is their intention to reserve the extent once for all for the tank bed.

For purposes of ready reference the details of the lands are noted in the statement below:—

Village	Survey No.	Extent		Assessment			Remarks
		A.	G.	Rs.	a.	p.

	Total ...			20	15	0	

It may perhaps be advisable to obtain information from the Madras Public Works Department or Revenue Department regarding the purpose of the present demarcation and whether it is proposed to acquire the extents included within the line.

I regret that the record has been delayed in my office for personal inspection. Owing to the abnormal rainfall in the tract in July 1907, the tank received a good supply of water, and I was not able to inspect the bed when I was at Chilur in the latter part of the month.

Proceedings of the Government of His Highness the Maharaja of Mysore, Revenue (Agriculture), dated 1st May 1909.

READ—

The following letter No. D. 1991, dated the 2nd April 1909, from the Revenue Commissioner in Mysore:—

"I have the honor to submit herewith for the orders of Government a copy of docket No. 717, dated the 28th March 1909, from the Deputy Commissioner, Tumkur District requesting instructions as to whether lands depending upon *Jogu* or percolation of tank water are also entitled to remission of half assessment by reason of the failure of water in the tank and the consequent failure of moisture in the surrounding locality."

Docket No. 717, dated 28th March 1909, from the Deputy Commissioner, Tumkur District, to the Revenue Commissioner in Mysore.

Adverting to Government Proceedings No. R. 6859-67—Agri. 175-08-2, dated 3rd March 1909, issuing instructions in the matter of granting remissions on wet lands below tanks undersigned has the honor to state that the Sub-Division Officer, Tumkur, has made a reference to this office enquiring whether lands depending upon *Jogu* or percolation of tank water are also entitled to half remission inasmuch as percolation depends upon the supply in the tanks and the general moisture of the surrounding locality. As no instructions are given on this point in the Government Order quoted above, undersigned requests the favor of clear instructions in the matter.

No. R. 9058-67—Agri. 175-08-11, dated Bangalore, 1st May 1909.

Order thereon.—The Government understand that lands which depend for irrigation upon percolation of water from tanks or subsoil moisture are usually cultivated with wet crops and are classed as wet lands. Sometimes, however, they are classed as dry and are cultivated with dry crops, although in years of abundant rainfall they may be cultivated with wet crops. Under the circumstances, the Government are of opinion that the description of the land in question given in the akarband ought to determine the concessions to which the land is entitled under the orders issued in that behalf.

Letter No. 443, dated the 10th April 1909, from the Chief Observer in charge of the Meteorological Department in Mysore, forwarding the Report on Rainfall Registration for the year 1908.

No. R. 9143-52—AGRI. 207-08-2, DATED BANGALORE, 5TH MAY 1909.

ORDER THEREON.—There were 216 Rain-gauge Stations as against 212 during the year 1907, the increase being due to the opening of four new stations during the year 1908.

2. The inspection of rain-gauges has not received adequate attention during the year in most of the districts. Only 9 out of 15 stations were inspected in the Kadur District and 15 out of 22 in the Chitaldrug District. Sixty-six stations are reported to have been inspected more than once, while 36 stations have not been inspected even once. A single station, Pavagada, was inspected five times. In place of this unsystematic inspection, the Deputy Commissioners should arrange to have all the stations in the district inspected once every year.

3. Government regret to note that out of 21 stations referred to in para 6 of Government Proceedings No. R. 1563-72—R. M. 26-08-2, dated the 7th September 1908, as not having the rain-gauges properly fixed on their pedestals, steps have been taken to rectify the defects in the case of only two. Government desire that the others should receive immediate attention.

4. The average rainfall for the whole State for the year 1908, was 29·94 inches as against 39·46 inches during the year 1907, and 36·79, the average of the past 38 years (1870-1908) as shown below :—

5. The period from June to October is the chief season for the cultivation of ragi, the staple dry crop of the State, and the rainfall of that period for 1908, as compared with the average rainfall of the period for the 38 years from 1870 to 1908, is as given below :—

Revenue (Agriculture), dated 5th May 1909.

6. Both the south-west and north-east monsoons proved disappointing, the latter to an even greater extent than the former. Till July, the rains were on the whole above the average, but after that they began to decline until in November and December the deficiency reached the maximum. The deficiency was the greatest in the Kolar District, being as much as 42 per cent, while Tumkur approached it closely with 40 per cent. The average deficiency for the whole State was 17 per cent. Leaving out the Shimoga District in which the rainfall, though not below the average, was nevertheless unseasonable and ill-distributed, the other districts failed to secure the average amount of rainfall. The rains having thus practically failed after July throughout a great part of the State when they were most needed for the crops, the out-turn was much affected, and in several parts of the State there was a more or less total failure of crops, rendering special measures of relief necessary. The rainfall in all the river basins was also defective. This was most noticeable in the case of the Cauvery, Pennar and the Palar series, on which much direct irrigation in the State depends.

7. The heaviest rainfall in 24 hours during the year was not as usual at Agumbe in the Shimoga District but at Arlagode in the same district, where a fall of 11·22 inches was registered on the 3rd July. The maximum registered at Agumbe itself was 9·12 on the 20th July. The rainfall for the whole year was as usual heaviest at Agumbe, where 314·74 inches were gauged, while it was the smallest at Talak in the Chitaldrug District, where only 4·89 inches were gauged.

8. The report under review is interesting and useful.

READ—

Letter No. 10349, dated the 2nd April 1909, from the Revenue Commissioner, in Mysore, submitting the statement of cattle mortality for the quarter ending 31st December 1908 together with the accompanying copy of his review thereon :—

" Statements received from Deputy Commissioners of districts showing the losses in cattle of various kinds during the quarter ending 31st December 1908.

Recorded.

2. The total loss of cattle in the State during the quarter under review numbered 34,552 as against 26,069 during the corresponding quarter of the previous year, showing an excess of 8,483. There were 21,377 deaths from sickness as against 16,959 in the corresponding quarter of last year. This heavy mortality was wholly due to the prevalence of rinderpest, murrain, and other diseases in a severe form in the districts of Bangalore, Kolar, Tumkur and Mysore and in a somewhat milder form in the other districts.

3. The following statement shows the number of cattle inoculated during the quarter :—

District	Number of cattle inoculated
Bangalore	80
Kolar	Nil.
Tumkur	Nil.
Mysore	1,161
Hassan	880
Shimoga	Nil.
Kadur	334
Chitaldrug	Nil.

The importance of inoculation should be made clear to the cattle owners by the Veterinary Assistant Inspector and Taluk Officers through intelligent patels. The Assistant Veterinary Inspectors should try to show more progress in this part of their work. The cattle owners should also be made to understand the salutary effect of segregation in checking the spread of the disease and that the carcasses of dead animals should be disposed of by burying them deep in the earth at a distance from the village without being allowed to be meddled with by Madigars for the sake of the skins."

No. R. 9212-20—AGRI. 64-08-8, DATED BANGALORE, 7TH MAY 1909.

ORDER THEREON.—Recorded.

2. Government note with regret that the epidemic diseases prevailing in various parts of the State show no signs of abatement. Government trust that, with the special instructions that have been issued by the Revenue Commissioner to make the Assistant Veterinary Inspectors take greater interest in inoculation of the diseased cattle and in segregating them, the next quarter will show a decided improvement in the general health of the cattle throughout the State.

Proceedings of the Government of His Highness the Maharaja of Mysore, Revenue (Agriculture), dated 11th May 1909.

READ—

1. Letter No. C. 297, dated the 23rd February 1909, from the Deputy Commissioner of the Chitaldrug District, requesting that arrangements may be made for the free supply of grass to agriculturists who make their own arrangements for its transport from the State Forests.

2. Letter No. C. 216, dated the 6th April 1909, from the Conservator of Forests in Mysore, on the subject.

No. R. 9328-37—AGRI. 41-08-98, DATED BANGALORE, 11TH MAY 1909.

ORDER THEREON.—Recorded.

2. It is not possible to supply cut grass free of cost to agriculturists. The cost of cutting at least should be recovered from them. The Government are accordingly pleased to approve of the arrangements made by the Conservator of Forests for the sale of hay at Rs. 2-8-0 per cart-load to the raiyats in the affected parts of the Chitaldrug District, the raiyats making their own arrangements for transport from Joladahal, where the cut grass is stocked. The Deputy Commissioner should give wide publicity to the arrangements.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

The following letter No. 1072], dated the 16th April 1909, from the Revenue Commissioner in Mysore, submitting for the information of Government, a memorandum showing the work done by Mr. T. G. Lakshmana Rao, Assistant Engineer, as Personal Assistant to the Revenue Commissioner:—

"With reference to Government Notification No. 63—412, dated 19th January 1909, (P. W. D.) posting Mr. T. G. Lakshmana Rao, Assistant Engineer, as Personal Assistant to the Revenue Commissioner, I have the honour to state that he joined my office on 1st February 1909, and to submit herewith for the information of Government a memorandum indicating the work done by him during the months of February and March. It will be seen from a perusal of the memorandum that he has toured for 35 days in 15 taluks inspecting on the whole 83 works of the Districts of Tumkur, Kolar, Kadur and Chitaldrug. He has set right many blunders on the part of the subordinate staff and rectified many of their errors. His inspections have thus been of great benefit both to the people and the State and might have helped to prevent waste or loss of money; and with the early rains now falling in the several taluks and districts, I think his inspections in the future would be of still greater value.

2. While at head-quarters, Mr. Lakshmana Rao checks the programmes of works received from the districts and draws up circulars and instructions for the guidance of local officers, in regard to the execution of and report on works, under my orders.

3. I shall submit to Government once every month in future similar memoranda of work done by him, so long as he is attached to my office."

Memorandum of work done by Mr. T. G. Lakshmana Rao, (Assistant Engineer) Personal Assistant to the Revenue Commissioner.

Assistant Engineer Mr. T. G. Lakshmana Rao joined duty as Personal Assistant to the Revenue Commissioner on 1st Februray 1909 and the work turned out by him, until the end of March may be summed up as follows:—

A. Inspection.—He has toured in the Tumkur, Kolar, Chitaldrug and Kadur Districts for a period of 35 days, inspecting works in the marginally noted taluks. A statement showing the number of works of each kind inspected in the several taluks is appended. It will be observed that in the Tumkur District, 21 tanks, 3 gokattes, 11 permanent wells and 3 other works; in Kolar District, 12 tanks, 2 gokattes, 10 permanent wells and 8 other works; in Chitaldrug District, 8 tanks and 3 permanent wells; and in the Kadur District, 1 tank, making a total of 42 tanks, 5 gokattes, 24 permanent wells and 12 other works, were inspected. The estimated cost of the works and the amounts of the approximate outlay on date of inspection are noted below:—

I. Tumkur District.
1. Tumkur Taluk.
2. Kunigal Taluk.
3. Gubbi Taluk.
4. Chiknayakanhalli Taluk.
5. Maddagiri Taluk.
6. Pavagada Taluk.

II. Kolar District.
1. Chikballapur Taluk.
2. Sidlaghatta Taluk.
3. Goribidnur Taluk.

III. Kadur District.
1. Kadur Taluk.

IV. Chitaldrug District.
1. Davangere Taluk.
2. Jagalur Taluk.
3. Challakere Taluk.
4. Hiriyur Taluk.
5. Hosdurga Taluk.

Estimated amount and progress.

Works		Estimate	Progress (Approximate)
		Rs.	Rs.
42 Tanks		34,678	15,000
5 Gokattes		2,511	2,000
24 Permanent wells		6,767	5,000
12 Miscellaneous works		7,502	5,000
83	Total ...	51,458	27,000

He also noticed that in the Kolar and Tumkur Districts, numerous irrigation wells and at enormous cost were being excavated by raiyats from their own resources and without Government aid.

B. Estimates.—In accordance with Revenue Commissioner's instructions Mr. Lakshmana Rao has submitted detailed reports of his inspection and the instructions he had issued to the local officials for their guidance. It should be observed that as most of these projects had been prepared by the Tank Inspectors who have had very indifferent training and as very few of them had been checked by the District Overseers after inspection and with due regard to the actual requirements, very few of the estimates were correct or satisfactory.

The Assistant Engineer during his inspections scrutinised all the estimates on works and pointed out the errors and defects discovered in them. They may be briefly described as follows:—

I. Tank estimates.—(1) Earthwork to raise the bund was estimated without any idea as to levels, assuming height of bund arbitrarily ½, 1, or 1½ yards without due provision for front and rear slopes.

(2) Similarly, provision was made for new stone work for revetment to front slope to an assumed height, without knowing the actual condition of the bund, the result being that in some cases the flanks were higher than the centre bund, and in others the centre was higher than the flanks instead of the whole having one uniform level.

(3) In some cases the stone work provided was so inadequate and the work, if executed only to that extent, would have left the tank unsafe and rendered the outlay a mere waste of money; whereas, if the full amount required to satisfactorily complete the tank work had been ascertained, the cost would have been so prohibitive that the work would not have been sanctioned.

(4) Rates were provided in many cases without reference to lead, lift, etc., and so were wide of the mark.

(5) Repairs or reconstruction of weirs were omitted in most cases where they were required in order to reduce the amount of the estimate and bring it down to the limit of the Deputy Commissioner's sanction, *viz.*, Rs. 500, or to avoid the need for showing at once the total expenditure in the hope of getting sanction for supplemental estimates.

(6) The lengths of weirs provided were disproportionate to the actual requirements, as they failed to ascertain the catchment area and to calculate the proper length to meet such drainage.

(7) Many accidental errors which had crept in the survey details of the tank projects were also detected and pointed out.

II. Drinking water wells estimates.—(1) Dimensions were assumed arbitrarily in the estimates without reference to the local requirements. Thus, large wells were proposed for small villages and sometimes small ones for populous places.

(2) The required depths were not fixed after ascertaining the level of the subsoil water in the neighbourhood.

(3) Where deepening was required, the class of soil was fixed at random in the estimate, without enquiry or examination.

(4) Rates provided in many cases were exorbitant and in some too low, some rates being provided without regard to the nature of the soil to be excavated.

(5) Stone revetment or casing was provided even in cases where the sides did not require such protection.

C. Execution.—The execution of works has generally been left almost entirely to the Tank Inspectors without guidance or fear of check, and they being wanting in experience and indifferent, have allowed the workmen to do just as they pleased.

The blunders in execution may be briefly stated as follows:—

I. In Tank Works.—(1)Borrow pits in the beds of tanks were located too dangerously near to the toe of the bund and no uniformity, in size or shape of the pits, was observed.

(2) The surfaces of old bunds were not prepared by removing the stumps and roots of shrubs and cutting the slopes into steps to prevent slipping, before new earth was laid.

(3) No profiles were erected for the cross sections of bund before building the stone revetment or raising the bund, and in consequence thereof the slopes of revetments varied in different parts and were invariably steeper than the standard slope and the surface throughout was uneven.

Revenue (Agriculture), dated 11th May 1909.

(4) The quality and size of stone used for revetment did not come up to the standard in many of the tanks and the construction was otherwise faulty.

(5) The earthwork was not carried out to bund in the prescribed method; *viz.*, laying earth in thin layers, breaking the clods and consolidating the same before fresh layers were put on.

(6) When trees on bunds were cut, the lower portions of the stumps and the roots were not removed.

The Assistant Engineer in his tours not only pointed out the defects in detail to such of the Sub-Divisional Officers and Amildars who accompanied him but made it a point to explain the *modus operandi* of every item of work that had to be carried out and also how to construe plans and drawings and estimates as well as to check approximately the accuracy of drawings and estimates with reference to works.

He also taught the Tank Inspectors and some of the Shekdars the practical work as far as it was necessary, or they could understand, and made them set out profiles in tanks day after day, as they were without an exception found to be ignorant of the same, though it was an indispensable qualification for their appointment. The use of the "Ghat tracer" in tank works was also taught.

D. Measurements.—Some of the Amildars did not understand how to check the measurements of tank works and all who showed an inclination to learn were instructed.

E. Bills.—He noticed that in all cases of work by contract, bills for payment were invariably prepared giving full estimated rate although the work done was incomplete and unsatisfactory; *e. g.*, full rate was given for earthwork though consolidation had not been attempted, and revetment was paid for in full, though no jelly-packing had been carried out.

Correspondence ending with letter No. 569, dated the 26th April 1909, from Dr. Coleman in charge of the Agricultural Chemist's Office, on the question of the form and size of the publication of the Annual Administration Reports and other matters of public and general interest.

No. R. 9405-6—AGRI. 42-08-10, DATED BANGALORE, 12TH MAY 1909.

ORDER THEREON.—Government agree with Dr. Coleman in the opinion that Part II of the Annual Administration Report of the Agricultural Chemist, which contains detailed description of particular investigations carried on in the Agricultural Chemist's Laboratory or the Experimental Farm, may be omitted with advantage from it and issued separately from time to time in the form of bulletins as materials become available. They are therefore pleased to direct that the Administration Reports of the Agricultural Chemist or other officer who would correspond to him when the Department is fully constituted and of the Mycologist and Entomologist should be drawn on the same lines as the Administration Reports of other Departments and printed and published in the same form. Their Administration Reports should merely contain a brief statement of the work done during the year, a general outline of future work, any important investigations in progress or conclusions arrived at and the benefits derived therefrom, together with matters relating to the personnel and efficiency of the Departments. All other matters of general interest should be published as bulletins in the 8vo form as proposed.

Memorandum No. D. 2247, dated 23rd April 1909, from the Revenue Commissioner in Mysore, forwarding the following copy of his official memorandum No. D. 2238-9, dated 22nd—23rd April 1909, regarding the allotment of funds for the purchase of seed grains and the manner in which the seed grains should be stored and distributed :—

SUBJECT—

(1) D. O. letter from the Deputy Commsssioner, Bangalore District, dated 10th March 1909, stating that 75 candies of seed ragi are available at Anekal, at a cost of Rs. 1,200; and D. O. letter dated 10th April 1909 from the same officer, stating that 18 pallas of seed ragi at Rs. 19 a candy, 10 candies at Rs. 22 a candy and 50 pallas at Rs. 9-8 per palla are available at Kankanhalli, Dodballapur and Magadi, respectively, and requesting sanction for the funds required for purchasing the available stock and keeping the same in store for distribution to the raiyats in the cultivation season.

(2) Letter No. A., dated 30th March 1909 from the Deputy Commissioner of the Kolar District, applying for a sum of Rs. 8,000 for importing healthy seed grains through merchants and raiyats.

(3) Government Proceedings No. R. 8719-28—Agri. 169-08-9, dated 20th April 1909, sanctioning Rs. 10,000 for purchasing seed grains for distribution to the raiyats in the affected parts of the State.

The estimated cost of purchasing the seed ragi as referred to by the Deputy Commissioner of the Bangalore District comes to about Rs. 2,050. A sum of Rs. 2,500 is, however, placed at his disposal for purchasing the quantity of seed ragi as reported by him and any additional quantity that may be found available.

2. The ragi so purchased should, for the present, be kept carefully packed in gunny bags or other material so that it may not be spoiled or become unfit for the purpose intended.

3. Different qualities should not be mixed up, but on the other hand a statement should be maintained of ragi purchased from particular individuals or villages with corresponding marks on the bags for identification, so that in distributing the ragi to different districts suitable seeds may be sent to different localities, as the bulk of the quantity is intended for distribution to affected parts in the several districts. Full-grown and healthy grains should be purchased and they should be carefully sifted and sorted before issue, so as to serve as an object lesson to the raiyats on the advantages of good and unmixed seeds; and where only small quantities are available for issue to raiyats, they should be instructed to sow them in separate plots in order that they may be able to gauge the results.

4. The seed ragi purchased may be left in the custody of the local Patels or Amildars if this were feasible. Otherwise, the Deputy Commissioner may arrange to bring the same to Bangalore and the undersigned will give instructions for storing it.

5. The Deputy Commissioner of the Kolar District reports that the Amildar of Chintamani alone requires Rs. 3,000 for purchasing seed grains and that in order to meet other demands a sum of Rs. 8,000 at least is necessary. If loans of money are intended to be given to the raiyats for purchase of seed grains, funds for that purpose should be sanctioned out of the allotment made to his district for Takavi advances. If, on the other hand, money is wanted for the Amildar himself for purchasing seed grain and storing it for issue to raiyats hereafter, he should report in detail his requirements. For the present, a sum of Rs. 2,000 is placed at the Deputy Commissioner's disposal for this purpose.

6. The Deputy Commissioners of Kolar and Bangalore Districts are requested to report the arrangements made for the purchase of seed grains, the rate at which they are purchased, the place at which they are stored, the transport charges, if any, the rate and the terms on which the seeds are proposed to be issued to the raiyats, the method of distribution at the sowing season and the method of recovering the amount now advanced for the purchase of the seed grains.

No. R. 9452-60—Agri. 85-08-22, DATED BANGALORE, 13TH MAY 1909.

ORDER.—The attention of the Revenue Commissioner and the Deputy Commissioners of Districts is invited to para 2 of Section 36 of the Mysore Famine Code directing that any marked change in the agricultural situation producing an increase or decrease of distress should be immediately reported to Government. From the reports of rainfall received during the past few weeks, the Government have reason to believe that the recent rains have materially improved the situation. To enable the Government to gauge the extent of this improvement, all Deputy Commissioners are requested to submit at an early date full reports on the condition of their districts as on 1st June 1909, with reference to the following points:—

(1) The economic and agricultural condition of the affected tracts;

(2) The extent to which the various measures of relief sanctioned by the Government have been undertaken, the degree of relief afforded thereby, the necessity for the continuance of all or any of them and the scale on which they should be continued;

(3) Position as regards food stocks, prices and trade;

(4) The condition of cattle and the adequacy or inadequacy of water and fodder supply;

(5) The general state of public health; and

(6) The future outlook, and any general remarks of an interesting character.

1. Government Proceedings No. R. 4115-24—R. M. 712-04-21, dated 25th October 1906, issuing instructions with regard to the preparation, compilation and publication of the fortnightly statement of wholesale prices of food grains.

2. Letter No. 2946, dated the 15th May 1909, from the First Assistant to the Hon'ble the Resident in Mysore, forwarding a revised list of articles in respect of which information is required by the Commercial Intelligence Department.

No. R. 9888-96—AGRI. 127-08-13, DATED BANGALORE, 25TH MAY 1909.

ORDER THEREON.—In para 3 of the Government Order read above, the number of articles to be included in the statement of wholesale prices of food grains is 20, while in the list now received four more articles, *viz.*, Bhoosa, Bran, Oats and Kerosene oil, are added. The Revenue Commissioner is requested to issue instructions to the Deputy Commissioners to include in future returns the prices of these four articles also.

2. With regard to Kerosene oil, the description of the oil for which the price is quoted should be stated and the prices given per tin and not per seer, maund, box, case, etc. The Revenue Commissioner is further requested to report what is the brand of the Burma Kerosene oil, which is in most common use in India, and what the position of the Victoria brand is in the local markets.

READ:—

The following letter No. D. 2156, dated the 17th April 1909, from the Revenue Commissioner in Mysore, and certain office notes thereon:—

"With reference to Government Order No. R. 7739-48—Agri. 167-08-6, dated 26th March 1909, recording the list of affected taluks and hoblis submitted with this office letter No. D 1591 dated 15th March 1909 with the observation that 'it is not clear on what basis tract have been classed as affected,' I have the honor to state as follows:—

2. I have not as yet come across any precise definition of an affected tract. Section 36 of the Mysore Famine Code requires that whenever, owing to a deficiency or failure of the rainfall Agricultural prospects become serious and apprehensions of distress arise in any district the Deputy Commissioner should furnish the Revenue Commissioner with a special report. According to Section 34 the 'signs of approaching danger' are described as (1) contraction of private charity, (2) contraction of credit, (3) feverish activity in the grain trade (4) increase of crime, (5) unusual movements of flocks and herds, (6) unusual migration of people. But these are symptoms which manifest themselves at a later stage as the effects of reduced harvests commence to act upon the supply of food and fodder for men and cattle and Deputy Commissioners cannot wait for such indications to submit their reports under Section 36.

3. Under these circumstances I thought I could not do better than profit by the wise conclusions of Sir Charles Elliott in his able History of the Famine in Mysore and the Notes of Proceedings issued by Sir K. Sheshadri Iyer in the drought of 1891-92. According to Sir Charles Elliott the average produce of dry land per acre is between 2 and 3 candies and the lowest estimate of yield from wet land is 3 candies of rice (or husked paddy) per acre The extent of land cultivated with ragi and cholum in a normal year in the Maidan districts being about 2,200,000 acres according to the agricultural statistics, and assuming that about a candy of grain would be required for the maintenance of an individual for a year, the total produce required for the food of the population of the maidan tracts (assuming it at 3 millions), will be an outturn representing not less than 8 annas or half the normal outturn. Again, in the carefully prepared Tour Notes of Sir K. Sheshadri Iyer in the distress of 1891-92, he was inclined to regard harvests estimated at less than three-eighths of a normal crop as poor and the tracts likely to be affected.

4. As remissions and suspensions of revenue are granted only in seasons of severe scarcity or drought, I also examined the available orders of Government as to what considerations weighed with them in granting such concessions.

(*a*) In Government Order No. R. 10878-87—Agri. 22-05-35, dated 19th February 1906, the Government sanctioned the remission of half the assessment in the Kolar District in the case of wet lands classed as 'rice' under tanks which owing to the absence or failure of water-supply in the tanks either actually lay waste during both the seasons (Karthika and Vaisakha) of the year or yielded a crop of four annas and under in either of those seasons. A similar order was passed in regard to Tumkur District by Government on 1st May 1906 (*vide* Government Order No. R. 14084-5—Agri. 101-05-32, in para 2 of which Government were agreeable to suspension of dry assessment on lands which yielded less than a four anna crop).

(*b*) In his letter dated 17th November 1905, the then Revenue Commissioner, in recommending the proposals of the Deputy Commissioner of Shimoga for suspension and remission of revenue in some of the taluks of that district considered the harvests of paddy and ragi bad even though they varied from 4 to 11 annas—an opinion in which the Government concurred.

(*c*) In the United Provinces of Agra and Oudh in the recent famine of 1907-08, the Government sanctioned a sliding scale of remission graduated on the loss in the yield to the cultivator, a total remission being granted when the loss in outturn exceeded twelve annas (*vide* page 98, para 58 of the Resolution on the Administration of Famine Relief in the United Provinces).

5. Taking all the above facts into consideration and also having in view the fact that the estimates of crop, outturn prepared by shanbhogs would not generally be accurate and if anything, might be below the actuals, I explained to the Deputy Commissioners at the conference held in my office on 8th December 1908, that the areas which have suffered by the failure of rainfall and in which the outturn of dry crops was not more than four annas should be regarded as affected tracts. The outturn of dry crops was adopted as the criterion

for the determination of affected tracts, as in the maidan the tanks were known to have received little or no supply of water and wet crops were regarded as very poor or almost nil except in a few favoured localities which were, as understood at the conference, to be excluded from the category of affected tracts. In this connection I beg to quote below extract from para 5 of the Notes of the conference of the 8th December last held in my office :—

'The rules regarding remission and suspension should be applicable only to the *affected tracts* which must be not a particular land but an area consisting of a village or a group of villages which have suffered by the failure of rainfall and in which the dry crops have not yielded more than a four anna crop, and the policy should be to exclude the famine-protected tracts such as those watered by river channels, etc., any individual cases of hardship being considered separately by the Deputy Commissioners under the ordinary rules. Generally, the malnad portions cannot be considered as affected, but if there should be any locality which is considered to have suffered from the drought, it may be dealt with as an affected area.'

6. In conclusion, I beg to state that the criterion adopted for deciding whether a tract was affected or not was whether the out turn of dry crops was not more than four annas. I request that Government may be pleased to state whether the view commends itself to them, and if not, what other criterion they would wish to be adopted by the Deputy Commissioners.'

OFFICE NOTES.

* * * * * * *

2. When sometime ago the Revenue Commissioner submitted a list of affected tracts, the Government were not able to understand the principles on which the classification was made and they therefore recorded the letter with an observation to that effect. The Revenue Commissioner is now trying to define the term "affected tracts."

3. He says that the Mysore Famine Code does not contain a definition of the term and that one has therefore to be framed. He refers to the opinions of Sir Charles Elliott and Sir K. Sheshadri Iyer, that a tract in which the outturn of crops realized is less than eight to six annas is likely to become affected with distress and to stand in need of relief, and he points out that this view has been acted upon with some modifications by the Government in the policy adopted by them in 1905-06. He also points out that the principles on which suspensions and remissions were granted during the recent famine in the United Provinces of Agra and Oudh were similar. These, he says, were the principles which weighed with him when he prepared, in consultation with the Deputy Commissioners, a list of affected tracts.

4. The Revenue Commissioner accordingly defines affected tracts as villages or groups of villages in which the outturn of dry crops was below four annas. It is, he points out necessary to adopt the dry crop standard for the basis of classification as wet crops have failed in practically the whole of the maidan. Thus defined, affected tracts would include most of the maidan parts of the State and a few isolated patches of the malnad.

5. The Revenue Commissioner has relied upon the opinions of Sir Charles Elliott and Sir K. Sheshadri Iyer and upon certain precedents here and elsewhere. But the opinions go merely to show that an outturn of crops below 6 annas was considered likely to produce distress in a tract; and the policy adopted by the Government here in 1905-06 and more recently by the Government of the United Provinces of Agra and Oudh in 1907-08 merely shows that an outturn of crops below four annas was considered to justify the grant of remissions, suspensions being granted in other cases. They show, neither of them, that a less than four anna crop was taken as actually proving the existence of distress in a tract, justifying its being treated as affected.

6. The truth seems to be that the four anna limit was considered to indicate nothing more than that the tract was likely to be affected with distress. In fact, Sir K. Sheshadri Iyer himself did not think that a failure of crops to this extent called for even remissions and suspensions of the land revenue. As has been pointed out in another connection, it was only in cases of total failure of crops that this indirect measure of relief was extended during the scarcity of 1892, and it is through the influence of the Government of India Resolution of 1905 that the point of crop failure necessitating remissions and suspensions has been lowered from two to four annas.

7. Whatever may be the value of the four anna limit as a test of the need of such indirect measure of relief as remissions and suspensions, the grant of takavi advances, etc., it is not, it is submitted, a safe and reliable test of the existence of distress and the consequent necessity for direct measures of relief.

Revenue (Agriculture), dated 26th May 1909.

8. It has been the policy of the Government from the very commencement of relief operations to maintain a sharp distinction between affected and unaffected tracts, and to confine direct measures of relief to affected tracts. So far, the principal measures of direct relief undertaken by the Government are: advances to agriculturists for subsistence, grant of gratuitous relief, construction of drinking water wells and similar works of general utility, advances for various repairs to minor and major tanks, and advances for opening grain shops. The grant of advances to weavers and of grain compensation to the poorer officials are regulated by special considerations of their own and do not require to be mentioned here.

9. The proper way of finding out whether a tract is affected or not is therefore to enquire whether direct measures of relief are required. If they are, the tract ought to be treated as affected even if more than a four anna crop has been realized; if they are not, it ought to be considered unaffected even if less than a four anna crop has been realized. Measures of direct relief are likely to be required naturally in places where the out-turn of crops has been poor, but whether they are required as a matter of fact has to be decided not by the extent of the failure of crops but by the effects which this has produced. And the effects produced have to be judged by a careful consideration of the general level of prices, the contraction of credit and private charity, restless and unusual wandering of people in search of food or work, and the other well-known signs of distress. To substitute for these tests the one proposed by the Revenue Commissioner is to make the task of classification of tracts a mechanical one and to dispense with the safeguards imposed on the task.

10. It has been already stated that a less than a four anna crop has been considered to indicate nothing more than the possibility of distress being produced. But even if it be considered that Sir Charles Elliott and Sir K. Sheshadri Iyer took it as indicating the actual existence of distress, it has to be pointed out that conditions have changed considerably within the past twenty years and that what was then true need not necessarily be so now. Difficulty of obtaining food grains was one of the chief forms of distress then and the extent of crop failure was therefore an important consideration. But there has yet been no case reported to Government during the present season of distress where there was any real difficulty experienced in obtaining food grains. The difficulty in fact has been chiefly in respect of drinking water, fodder and employment to the poorer labourers and these things are not very much affected by the state of the harvests.

11. * * * * *

12. Considering the favorable indications that we have recently had of the mungar rains, there seems to be no necessity at present to find out a general definition for "affected tracts" applicable under all circumstances. The point of crop failure which would produce distress varies even in the same tract and is dependent upon several causes, such as the state of the previous seasons, the natural and other resources of the tract and the general condition of the market and of the people. It is therefore impossible to fix any absolute standard of distress or to judge of the necessity for relief merely from the extent of the failure of the crops. The usual policy is to declare such tracts as affected as have been found, by the opening of test works, to need relief measures, that is, those in which famine conditions exist or those which are on the border land. In order to make the most of the sustaining power of the people and help them to conserve their energies so that they may not become exhausted by their severe battle with unfavourable conditions, we have studiedly refrained from imposing the rigid conditions of test with their natural concomitants of distrust and panic this year, and have practically managed to tide over the severest part without creating any demoralizing scare. It is therefore unnecessary at this stage, when there are signs everywhere of normal conditions returning, to define any stringent test for determining the affected tracts. The only practical purpose for which the definition now seems to be necessary is for finding out what parts of the State are entitled to the concessions made by Government regarding suspensions and remissions of assessment and as the existence of distress is only one of the grounds on which such remissions and suspensions are granted, when there is a wide-spread failure of crops, we may accept for the purpose, the four anna crop basis proposed by the Revenue Commissioner.

13. By a careful survey of agricultural conditions throughout India, the Government of India in their Resolution of 1905 have fixed the four anna crop basis as indicating that point of crop failure at which, it may be presumed that cultivation for any long period would be impossible. A limit is fixed here merely to decide whether a particular tract is entitled to the concession. Remissions and suspensions are not allowed on all lands included within the affected tracts without a field-to-field inspection and the right of each field to the concession is required to be investigated separately. There is not much harm, therefore, in fixing even a somewhat high limit as the concession is not made uniformly applicable to all lands situated in the affected tract or even a village within it in which the degree of failure of the crop may be more accurately gauged.

No. R. 9960-8—Agri. 167-08-9, dated Bangalore, 26th May 1909.

Order thereon.—The discussion above printed is interesting and informing. Although in view of the recent rains the question has at present little more than an academical interest, it is important that some definite understanding should be reached for future use. For this purpose the Government will be glad to be furnished with the views of Deputy Commissioners of Districts and their Sub-Division Officers as to what should be considered as an "affected tract" for purposes of the Famine Code, and under what circumstances. A suggestion is made that that should be called an "affected" village the agricultural produce of which taken as a whole and for the entire agricultural year (Karthika and Vaisakha harvests combined) is not better than what is called a four anna crop, *i.e.*, not better than 25 per cent of a normal crop as taken to be represented by 16 annas.

2. Letter No. 5373—T. 1869, dated the 16th March 1909, from the Comptroller, suggesting that the above establishment may be provided from the supernumerary peons of the General and Revenue Secretariat and other Head-quarter offices and that, whenever additional establishments are sanctioned, supernumeraries should be first absorbed before new men are entertained.

3. Correspondence ending with letter No. 11736, dated the 14th—17th May 1909, from the Revenue Commissioner in Mysore stating in reply to this office enquiry that it would be inconvenient to select the supernumerary men available in the General and Revenue Secretariat, as all the three places in Mr. Lakshman Rao's menial establishment have already been filled up till the end of June 1909.

No. R. 10004-44—AGRI. 158-08-8, DATED BANGALORE, 28TH MAY 1909.

ORDER THEREON.—Under the circumstances represented by the Revenue Commissioner, Government consider it inexpedient to disturb the arrangements made by him.

2. Government observe that the appointment of new men in cases in which their places may be filled by supernumerary men remaining unabsorbed should be avoided as it would frustrate the object with which the reductions of menial establishment were ordered. Government therefore direct that whenever additional establishments are sanctioned either temporarily or permanently, efforts should be made in giving effect to the orders, to absorb, in consultation with the General and Revenue Secretariat and other Head-quarter offices, all the supernumeraries available in them before new men are entertained.

3. A consolidated list showing the names of such supernumeraries will be prepared in the Secretariat once a quarter and circulated to Heads of Departments and Deputy Commissioners of Districts for information.

The following papers relating to the settlement of the Yerrammanahalli State Forest in the Tumkur District:—

(1) Letter dated 30th July 1904, from Mr. C. Seshadri Iyengar, 1st General Assistant Commissioner and Forest Settlement Officer, Tumkur, to M. Muthannah, Esq., B. A., Conservator of Forests in Mysore, through K. Doraswamy Iyer, Esq., Deputy Commissioner, Tumkur District:—

"I have the honor to report the conclusion of the settlement of the proposed Yerrammanahalli State Forest situated in the Pavagada Taluk.

The initial notification under Section 4 of the Mysore Forest Regulation, proposing to constitute the area into a State Forest, appeared in Government Notification No. 428 -2460, dated 7th January 1902, and proclamation under Section 5 of the Regulation was published in the *Mysore Gazette* dated 20th March 1902.

I was not able to commence the settlement work in time owing to the pressure of jamabandi and other works.

The block was inspected by me and Mr. Heera Singh, District Forest Officer, on the 9th October 1903, and the settlement work was conducted the next day.

In all six claims were received and the decision arrived at in each case is given in the B Register. The petitioners or the claimants mainly urged that the tract proposed to be reserved may be excluded on the ground that the area that would be left after reservation would be quite inadequate for their cattle. The Khaneshumari accounts were examined and the number of cattle, goats and sheep in each village was checked. A careful enquiry was also made and the settlement was effected with due regard to the interests of the raiyats and Government in the Forest Department.

The area proposed to be reserved was 4 square miles, 19 acres and 32 guntas, and the area as finally settled comes to 1,898 acres and 38 guntas.

The final notification under Section 17 of the Regulation, signed both by myself and the District Forest Officer, together with the papers noted in the margin are herewith sent.

1. B Register.
C Register.
2. Alienation statement.
3. Sketch Map.
4. Boundary statements in English and Canarese.

One hundred acres out of Kharab No. 37 of the extent of 251 acres and 14 guntas proposed to be given in exchange for gomal No. 43 of the extent of 40 acres taken for the State Forest, may be approved by the Deputy Commissioner before the papers are sent on to the Conservator."

The 40 acres taken up are said to be good land. The land proposed to be given in exchange is not so good and so the extent has to make up for the quality.

(Id.) K. S. D.,
Deputy Commissioner.
9-8-1904.

(2) Letter No. 8979, dated the 8th March 1908, from Revenue Commissioner in Mysore, stating for reasons assigned that he has no objection to the issue of the revised notification and pointing out a discrepancy of 25 acres and 8 guntas.

(3) Letter No. 238, dated the 19th April 1909, from the Deputy Commissioner, Tumkur District, explaining that the discrepancy was due to the fact that the boundary line had to be drawn in a straight line avoiding turns in two places and that therefore the total area given as 1,525 acres and 22 guntas is correct.

Shirige Rudrappa Yenyappa and other raiyats of Yerrammanhalli.	10th October 1903	That their gomal No. 35 and kharab No. 12 may be excluded from the State Forest.	Long enjoyment supported by entries in the survey and village accounts.	The prayer of the petitioners to exclude their gomal lands seems reasonable. The other kharab numbers may be included.	Kharab Nos. 12, 36, 37 and 35 have all been included. Of this 35 is gomal. The prayer of the petitioners to exclude their gomal is admittedly reasonable. It will accordingly be excluded. As the number of cattle in the village is 131 and sheep and goats 337, I see no reason to exclude the kharab numbers. They will be included. The assessed land No. 13 under occupancy will be treated as an enclosure in No. 12. The existing right of way from Yerrammanahalli to Hosdurga in No. 12 is admitted. The cattle of the village may be taken in the same road to the pond situated in the south-eastern corner of Survey No. 12. (Sd.) C. Seshadriengar, Forest Settlement Officer. 10th October 1903.		
Nagaija, Tippiah and other raiyats of Tippaiyanadurga village.	10th October 1903	That kharab Nos. 39 and 41 may not be reserved as this would put them to great inconvenience.	Long enjoyment supported by entry in the survey accounts.	There are no reasons to exclude the two numbers as they are kharab lands and as the raiyats have got sufficient lands for grazing. However as No. 39 is surrounded by cultivation, it may be excluded.	No. 39 is surrounded by cultivation. Its extent is only 39 acres and 23 guntas. It is excluded. There are no reasons to exclude No. 41. The number of cattle in the village is only 217 and sheep and goats 1,141. Evidently the raiyats have got large number of sheep and goats for trade. No. 41 is included. (Sd.) C. Seshadriengar, Forest Settlement Officer. 10th October 1903.		
Linganna, Gangia and other raiyats of Tippaganahalli.	10th October 1903	That their pasture land No. 47 and assessed waste No. 45 may not be included in the State Forest as the same will put them to great inconvenience.	Do	Pasture land No. 47 may be excluded as the exchange proposed is inconveniently situated. There is no use of including the other two small numbers. They may also be excluded.	The three numbers proposed to be included in the State Forest are excluded. The raiyats consent to take the assessed land No. 45 for cultivation from this year. No. 47 is gomal land. This cannot be included as no suitable land can be given in exchange. It is useless to include the other kharb No. 50, which is only of the extent of 21 acres and 13 guntas. (Sd.) C. Seshadriengar, Forest Settlement Officer. 10th October 1903.		

Revenue (Forest), dated 18th May 1909.

4	Ajjappa, Hanumanthappa and other raiyats of Hosdurga.	10th October 1903	That right of way for taking their cattle across Survey No. 88, their gomal land proposed to be included in the State Forest, may be admitted.	Long enjoyment and supported by entries in the survey accounts.	May be admitted.	Survey No. 88 may be included in the proposed State Forest. The right of way commencing from south-east corner bandas of No. 89 passing in a south-easterly direction up to the pond situated in Survey No. 13 of Veranmanahalli of the width of 45 feet is admitted. (Sd.) C. Seshadriengar, Forest Settlement Officer. 10th October 1903.	Right of way of a width of 150 feet is desirable in view of the large number of cattle that have to pass through the forest for water in the pond. Out of 268 acres and 27 guntas of gomal, only 170 acres 25 guntas have been now proposed. (Sd.) K. Doraswamy Iyer, Deputy Commissioner.
5	A. Narasiah, M. Venkataramaniah and other raiyats of Soobhaikanhalli village.	Do	That gomal lands Nos. 46/49 and 61 proposed to be included in the State Forest may be omitted as great inconvenience will be caused to them if they are included.	Do	As only one number *viz.*, 46, of the extent of 218 acres and 28 guntas, is proposed to be included and as equal extent is proposed to be given in exchange, no hardship is caused to the raiyats.	The petitioners are wrong in stating that all their gomal lands are included. Survey Nos. 49 and 61 of the extent of 218 acres and 3 guntas have not at all been included. The only number taken up is 46, and an equivalent extent is proposed to be given in exchange. I see no reason to exclude No. 46. It will be included. The existing right of way from Veranmanahalli to Hosketa is allowed. Kharab Nos. 44 (138 acres and 12 guntas) and 45 (67 acres and 20 guntas) will be given in exchange. (Sd.) C. Seshadriengar, Forest Settlement Officer. 5th March 1903.	Since only 18 acres 16 guntas instead of 228 acres 16 guntas in Survey No. 46 of Soobhaikanhalli have been finally taken for the forest, no exchange is necessary. (Sd.) K. Doraswamy Iyer, Deputy Commissioner.
6	Timmaiah, Boggodu and other raiyats of the village of Hanumanahatta.	Do	That Survey No. 43 now proposed to be included as State Forest may be excluded as this is their only free grazing land.	As the number is included as free pasture in the survey and village accounts, it may be excluded.	As the demarcation line cannot be taken to No. 46 of Soobhaikanhalli, without including the number, it may be included and suitable land given to the raiyats in exchange.	No. 43 of the extent of 40 acres and 8 guntas is not useful to the raiyats as the adjoining portions are to be included as State Forest. The exchange proposed is an assessed number. It has been since applied for cultivation and is surrounded by holdings. It is absolutely necessary to take No. 43 on the demarcation line to No. 46 of Soobhaikanhalli. It will be included. 100 acres out of Kharab No. 37 towards the north of the number will be set apart as free gomal and included in the exchange statement. (Sd.) C. Seshadriengar, Forest Settlement Officer.	Since Survey No. 43 is now entirely excluded, no exchange is necessary. (Sd.) K. Doraswamy Iyer, Deputy Commissioner.

NOTIFICATION.

No. R. 9589—Ft. 110-06-7, dated 18th May 1909.

The Government of His Highness the Maharaja of Mysore are pleased to declare, under the provisions of Section 17 of the Mysore Forest Regulation (XI of 1900), that, from 1st June 1909, the area, the boundaries of which are set forth in the schedule annexed to this notification, shall be deemed to be a "State Forest" subject to the exercise of rights specified at foot thereof:—

Schedule.

District	Taluk	Approximate area	Name of block	Boundaries
Tumkur	Pavagada	1,525 acres and 22 guntas	Yerammanhalli	*North.*—Starting from the north-east corner of Survey No. 40 of Tippaiyanadurga, the line runs in a north-easterly direction on the southern side of Survey No. 47 of Tippaganahalli; then north-east along the south-east of Survey No. 47 to the south-west corner of Survey No. 92 of Hosdurga; then east to the south-east corner of the said No. 92; then north-west along the east side of the same survey number to the south-west corner of Survey No. 89 of the same village; then east on the south side of the same survey number up to its south-east corner; then north on the east side of the same survey number to the south-west corner of Survey No. 90 of the village; then east along the south side of Survey Nos. 90, 87, 84 and 83 of the said village Hosdurga to the south-east corner of the last-named No. 83. *East.*—Thence south and west through Survey Nos. 88 of Hosdurga and 46 of Soolnaikanhalli, following the cart-track running from Hosdurga to Yerrammanahalli till it meets the western boundary of Survey No. 46 of Soolnaikanhalli about 2 furlongs south from the north-west corner of the last-named survey number on its western boundary; then south-east, following the above-named cart-track along the western side of Survey No. 46

of Soolnaikanhalli and Survey Nos. 11 and 10 of Yerrammanhalli; then through Survey No. 12 of Yerrammanhalli till it meets the north-west corner of Survey No. 9 of the last-named village.

South.—Thence south-west along the west side of Survey Nos. 9 and 14 of Yerrammanhalli; then south-west along the north side of Survey Nos. 14 and 16 of the same village up to the north-west corner of the last-named number; then north-west along the east side of Survey No. 35 to its north-east corner; then south-west on the north side of the same survey number to its north-west corner; then south on the west side of the same survey number to its south-west corner; then west on the north side of Survey Nos. 40 and 39 till it meets the south-east corner of Survey No. 38 of the same village.

West.—Thence the east side of Survey No. 38 of Yerrammanhalli to the north-east corner of the same survey number; then north-west along the east and north sides of Survey No. 43 to the south-east corner of No. 42 of Tippaiyanadurga; then north along the east side of Survey No. 42; then west on the north side of the said Survey No. 42 till it meets the south-east corner of Survey No. 39 of the same village; then north and north-east in a curve on the east side of Survey Nos. 39 and 40 to the starting point.

Remarks.

A.—The right of way over the undermentioned paths is admitted—No. I for men and cattle, No. II for cattle.

I. Path from Yerrammanhalli to Hosdurga passing through Survey Nos. 12 of Yerrammanhalli, 46 of Soolnaikanhalli and 88 of Hosdurga, 6 yards in width and 12 furlongs in length. It enters the State Forest at the north-west corner of Survey No. 9 of Yerrammanhalli, passes in a north-easterly direction and quits the forest at the south-east corner of Survey No. 83 of Hosdurga.

II. Right of way for the raiyats of Hosdurga to take their cattle to the pond in Survey No. 12. It enters the State Forest at the south-east corner of Survey No. 89, passing in a south-easterly direction through Survey No. 88 of the same village, and No. 12 of Yerrammanhalli up to the pond situated at the south-east corner of the last-named number to a width of 150 feet and to the length of about 10 furlongs.

B.—Patta right over Yerrammanhalli Survey No. 13 is admitted. The land will be demarcated out free from reservation and be retained as enclosure. Access is allowed for men and cultivating cattle to a width of 4 feet by a path entering the State Forest at the south-east corner of Survey No. 12 of Yerrammanhalli and running east for about 2½ furlongs to the land.

By Order,

K. S. CHANDRASEKHARA AIYAR,

Secy. to Govt., Gen. & Rev. Depts.

Proceedings of the Government of His Highness the Maharaja of Mysore, Financial (General Finance), dated 5th May 1909.

READ—

Letter No. 5401—B. R. 831, dated 17th March 1909, from the Comptroller to the Government of His Highness the Maharaja:—

"I have the honor to invite reference to clause (2) (*a*) of Section I of the Rules for operating on the Dewan's account with the Bank of Madras, which requires that the specie drawn from the Bank for use in the State Treasuries shall, in the first instance, be brought into the State Huzur Treasury before it is sent out to other Treasuries, and to state that there appears to be no object in bringing the money to the Huzur Treasury when the money is intended to be remitted to the Bangalore District Treasury. It is much easier to direct the remittance from the Bank direct to the District Treasury. I therefore think that this rule requires modification, and solicit orders of Government for dropping from the rule the condition requiring the money to be brought into the State Huzur Treasury in the case of remittances to the Bangalore District Treasury."

No. FL. 7164-6—G. F. 381-08-2, DATED BANGALORE, 5TH MAY 1909.

ORDER THEREON.—The Comptroller's suggestion made in the above letter is approved. The following will be added between the words 'instance' and 'or' in clause (2) (*a*) of Section I of the Rules in question:—

"except when such specie is intended for the Bangalore District Treasury, in which case it may be sent direct to that Treasury."

J. S. CHAKRAVARTI,
Financial Secretary.

To—The Comptroller to the Government of His Highness the Maharaja of Mysore.
The Officer in charge of the State Huzur Treasury.
The Deputy Commissioner, Bangalore District.

No. Fl. 7328-68—G. F. 280-04-1, dated Bangalore, 12th May 1909.

Order.—The Government of His Highness the Maharaja are pleased to direct the abrogation of Article 332 and clause (*c*) of Article 340 of the Mysore Service Regulations.

2. The higher maximum of Rs. 6,000 per annum will hereafter be applicable only to the case of the Chief Judge of the Chief Court, and members of Council, and a rule to that effect will be inserted in lieu of clause (*c*) of Article 340, now cancelled.

3. The abrogation sanctioned in para 1 of this order will not, however, have retrospective effect so as to affect prejudicially any of the officers to whom Articles 332 and 340 (*c*) now apply. A list is appended to this Order, showing the names of officers who will continue to be entitled to the benefit of the provisions of Articles 332 and 340 (*c*) now cancelled.

4. The Comptroller is requested to submit for the approval of Government the needful addenda and corrigenda to the Mysore Service Regulations.

Proceedings of the Government of His Highness the Maharaja of Mysore, Financial (Separate Revenue), dated 1st May 1909.

READ—

Letter No. 560, dated 13th July 1908, from the Excise Commissioner in Mysore, submitting the record of enquiry relating to the claim of the toddy excise revenue of Sarvamanyam Vukkalagere village, T.-Narsipur Taluk, Mysore District.

No. FL. 7066-8—S. R. 15-08-2, DATED BANGALORE, 1ST MAY 1909.

ORDER THEREON.—The sannad alienates "Eachalpairu," but the Inam Settlement conducted in 1879-80 reserves the "Abkari" revenue to Government as it was not then enjoyed by the inamdar. The village has neither a toddy shop nor a grove and the inamdar has not admittedly enjoyed toddy excise revenue for at least eighteen years prior to 1892-93. Concurring, therefore, with the investigating officer and the Deputy Commissioner and differing from the Excise Commissioner, Government hold that the claim to the toddy excise revenue of the village in question is not established.

Letter No. 8768, dated the 26th March 1909, from the Excise Commissioner in Mysore, submitting the record of enquiry relating to the claim to the toddy excise revenue of the Jodi Linganapura village, Chamrajnagar Taluk, Mysore District.

No. FL. 7151-3—S. R. 124-08-2, DATED BANGALORE, 5TH MAY 1909.

ORDER THEREON.—The Nirup, dated the 15th May 1821, alienates "Echalu," and at the Inam Settlement the item of "Toddy" is so far conceded that the holder can lease his trees to the Government contractor, the other items of abkari being reserved to Government. The Jodidar, however, admits that there has been no shop in the village during recent years, and his statements before the investigating officer go to show that he never enjoyed toddy excise revenue. Government therefore concur with the Excise Commissioner and direct that the Inamdar's claim be disallowed.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Letter No. 8323, dated the 10th March 1909, from the Excise Commissioner in Mysore, submitting the record of enquiry relating to the claim to the toddy excise revenue of Sarvamanya Thimlapura village, Channagiri Taluk, Shimoga District :—

" I have the honour to submit herewith the records of enquiry relating to the Inamdar's claim to the excise revenue from toddy of Sarvamanya Thimlapura village in the Channagiri Taluk, together with the correspondence ending with the Shimoga Deputy Commissioner's docket No. 639, dated 3rd March 1909, and to state as follows :—

" 2. This Inam appears to be a very old one, having been granted so far back as 1140 Hiziri of the Mahomedan era under a sannad by the Raja of Bijapur and renewed by Tippu Sultan in 1787. The Inamdar produced before the Amildar only a copy of the above. Neither the Sannad and Takeed quoted in column 11 of the Inam Register of Enquiry nor any Sannad or Nirup subsequently issued by His Highness the late Maharaja Sri Krishnaraja Wodayar Bahadur were produced before the investigating officer. In the absence of these it is not possible to say whether the excise revenue from toddy of the village was conceded to the Inamdar at the time of alienation of the village. But the antiquity of the Inam raises a presumption in favour of the Inamdar.

" 3. At the Inam Settlement of the village conducted in the year 1869, no mention is made as to whether the excise revenue from toddy was conceded to the Inamdar or reserved to Government. The correspondence with the Inam Superintendent in this matter has not elicited any definite decision. In his docket No. 70, dated the 27th September 1905, he says that toddy is not specifically conceded, but remarks that all items of revenue in the village, present and prospective, are included in the present settlement. He further states that ' a fresh settlement seems necessary if Government do not consider the very general decision recorded by Colonel Clarke as committal. ' In the statement of revenue filed by the Inamdar and mentioned in the register, income from toddy is shown for the years 1859 to 1862 only. In these circumstances I am of opinion that the Inam Settlement may be considered to be not unfavourable to the Inamdar.

" 4. In proof of the enjoyment of the right the Inamdar was not able to produce anything beyond the marginally noted Gutta Chits which go to show that the Inamdar was leasing out not only his date trees but the right of vending toddy in his village as well from 1870 to 1881 for sums ranging from Rs. 24 to Rs. 50 per annum. He himself admits that with a view to give rest to his trees they were not leased out from 1881 to 1892, when Government, in spite of the Inamdar's protest, appear to have sold the grove farm of this Inam village for a low sum. The Inamdar further states that in Criminal Case No. 76 of 1882 on the file of the 1st Class Magistrate of Shimoga he filed all the muchalikas he had but the records in that case are reported to have been burnt. In this criminal case also the Inamdar's right to the excise revenue from toddy has been to a certain extent recognised. In Revenue Miscellaneous case No. 1 of 1894-95 the Deputy Commissioner has decided that the Inamdar should get the grove farm rent minus the cost of the toddy establishment.

1.	Gutta	Chit	dated	1870
2		Do		1872
3.		Do		1874
4.		Do		1876
5.		Do		1891

" 5. In their Endorsement No. 7014—Ex. 247, dated 27th January 1898, the Government have informed the Inamdar that according to the Inam Settlement Register, he is entitled only to the rent of the date trees in the village utilized by Government farmers. As nothing specific is mentioned in the Inam Register of Enquiry of the village, it is not known under what circumstance this endorsement was issued to the Inamdar.

" 6. There is no toddy shops in the village but there is only a date grove. Besides, the village has been a depopulated one since 1871. Even if the Inamdar is held to be entitled to the excise revenue from toddy of the village, he will get nothing more than the grove farm rent for the years 1892-93 to 1896-97 subject to the usual deductions.

" 7. Though the latter Sannads have not been produced, in view of the fact that the Inam is a very old one, that the Inam Settlement is not unfavourable to the Inamdar, that the Inamdar has been for some time in the actual enjoyment of nothing shorter than the excise revenue from toddy of the village and that a most favourable consideration of the claim will not give the Inamdar anything more than the grove farm rent for the five years of Farming System, I am inclined to take a favourable view of the case and submit that the grove farm rent for the years 1892-93 to 1896-97 minus the local cess and the proportionate cost of establishment charges at 6 per cent, may be paid to the Inamdar.

Financial (Separate Revenue), dated 10th May 1909.

No. Fl. 7301-3—S. R. 198-08-2, dated Bangalore, 10th May 1909.

Order thereon.—The village has only a grove and no shop. The Sannad alienating the village has not been produced and the Inam Settlement conducted in 1869 makes no mention of the toddy revenue. Neither have the Inamdars established long and uninterrupted enjoyment of the privilege. Under these circumstances Government accept the opinion of the investigating officer and the Deputy Commissioner and hold that the Inamdar's claim is not proved.

2. The sum of Rs. 350 said to have been already advanced to the Inamdar should be recovered and credited to Government after verification from the accounts, and deducting therefrom the amount that may be due to the Inamdar under Rules 4 and 8 of the rules contained in Government Order No. 2074-83—R. F. 166-92, dated 2nd August 1901.

Proceedings of the Government of His Highness the Maharaja of Mysore, Financial (Separate Revenue), dated 13th May 1909.

READ—

Letter No. 8506, dated the 17th March 1909, from the Excise Commissioner in Mysore, submitting the record of enquiry relating to the claim to the toddy excise revenue of Sarvamanya Thore Bommanahalli, Malvalli Taluk, Mysore District:—

"I have the honor to submit herewith the records of enquiry relating to the Inamdar's claim to the excise revenue from toddy of Sarvamanya Thore Bommanahalli village in the Malvalli Taluk, together with the correspondence ending with the Mysore Deputy Commissioner's docket No. 658, dated the 12th March 1909, and to state that the investigating officer is of opinion that the claim is inadmissible, but recommends the case for treatment under Rule 19 of the rules of the 2nd August 1901, while the Deputy Commissioner would not allow more than the shop-rent if the Inamdar should be regarded as a privileged Inamdar.

2. This village along with five other villages was granted on Sarvamanya tenure by Her Highness the Maharani Deveerammanni Avaru with the sanction of her son, His Highness the late Maharaja Sri Krishnaraja Wodayar Bahadur, under a sanad, dated the 19th June 1826. This sanad concedes 'Echalpairu' to the Inamdar, and the term occurring along with other taxes there is no doubt that nothing less than the toddy excise was conceded, as has been held in the case of Hariharpur, Sivanasamudra and other villages. In the Druva Ondige of 1830, a sum of four pagodas and eight fanams is entered against 'Pairinahana' which appears along with several other items of revenue under 'Bajebab.' This "Pairinahana" might probably mean revenue from toddy.

3. At the Inam Settlement conducted in the years 1879 and 1880, the Inam Assistant has recorded that 'the grantees have been allowed to enjoy all items with the exception of sandalwood,' and no mention is made of sharab in the sannad; it must, therefore, be concluded that the Inamdars cannot distil sharab, nor enjoy sandal and other reserved kind of trees in the forest, if any sayer is allowed as is the case with the date trees. 'Date trees' are mentioned under items enjoyed. But the Inam Superintendent has decided that 'the items of sayer and toddy are conceded as per the sannads.' He has further recorded that the other items of abkari and forest rights are reserved. It is therefore clear that at the Inam Settlement the right of the Inamdar to the excise revenue from toddy of the village was recognised though the actual words used by the Superintendent raise a very strong presumption that the question of enjoyment was not entered into, but that the decision was based on the concession in the sannad.

4. Though there is a toddy shop in the village, but no grove worth the name, the Inamdars have not been able to produce evidence of having enjoyed the shop-rental at any time, nor to speak of the enjoyment during the period of twelve years immediately preceding the year 1892-93. Notwithstanding the concession of the right in the sannad and its recognition at the Inam Settlement and the existence of a toddy shop, I am of opinion that in view of the total absence of enjoyment of this revenue, the Inamdar's right, if ever it existed, has to be viewed as having fallen into desuetude and cannot now be revived. I may mention for the information of Government that in the parallel case of Pattasamanahalli, Thandakere and Lakshmipura villages, it was decided that the Inamdars were not entitled to the toddy excise of their villages.

5. No grove was sold in the village during the farming system, and the Inamdar is therefore entitled only to tree-rent whenever trees in his village are taken up for tapping by Government contractors."

No. FL. 7357-9—S. R. 215-08-2, DATED BANGALORE, 13TH MAY 1909.

ORDER THEREON.—The Inamdars are unable to adduce any evidence to show that they enjoyed toddy excise revenue at any time during the twelve years prior to 1892-93. What they state they actually enjoyed, is "Mohatarfa" and not toddy excise. Government therefore agree with the Excise Commissioner and hold that the claim should be disallowed.

Letter No. 9668, dated 24th April 1909, from the Excise Commissioner in Mysore, submitting the record of enquiry relating to the claim to the toddy excise revenue of Jodi Kammasandra Agrahar village, Anekal Taluk, Bangalore District.

No. FL. 7567-9—S. R. 247-08-2, DATED BANGALORE, 19TH MAY 1909.

ORDER THEREON.—The Sannad alienating the village in 1810 does not concede toddy excise revenue to the Jodidars, and the Inam Settlement conducted in 1876 has reserved it to Government. There has been also no proof of enjoyment of this revenue by the Jodidars. Concurring, therefore, with the investigating officer and the Deputy and the Excise Commissioners, Government hold that the claim is not established. One-fifth of the grove farm rent realised from 1892-93 to 1896-97 may be paid to the Jodidars under Rule 4 of the rules of 2nd August 1901, No. 2074-81—R. F. 166-92.

Letter No. 852, dated 3rd March 1909, from the Registrar of Joint Stock Companies:—

"I have the honor to state that whenever an Agricultural Bank is ordered by the Government to be wound up, it has been the practice in this office to treat the Bank as having ceased to exist and to close the register so far as it relates to such Bank on receipt of a report from the Inspector of Agricultural Banks of its having discontinued to carry on business. This does not appear to be a correct procedure. I think that as soon as the Government order is passed, the Bank should be wound up under exactly the same arrangements and subject to the same provisions as are prescribed for the voluntary winding-up of companies in Sections 173 to 196 of the Mysore Companies Regulation and that the Bank should not be considered to have ceased to exist until the return referred to in Section 187 is registered in this office and the Bank is finally dissolved. The prescribed periodical returns should also be submitted by the Bank till that period.

As my opinion is not, however, in accordance with the existing procedure, I beg to refer the matter to Government for orders.

2. Correspondence ending with letter No. 616—Cs. 77, dated 3rd April 1909, from the Inspector of Agricultural Banks, on the same subject.

No. Fl. 7410-21—B. 43-08-4, DATED BANGALORE, 15TH MAY 1909.

ORDER THEREON.—Government agree with the Registrar in the opinion expressed by him in the letter read above. An order of Government directing the recall of the loan granted to an Agricultural Bank has not the effect of winding up the Bank and will not justify the Registrar of Joint Stock Companies in entering in his books that the Bank is wound up. Until a Bank is wound up in accordance with the provisions of the Companies Regulation either voluntarily or through the intervention of the Court, the officials thereof are bound to send in the periodical balance sheets, etc., to the Registrar, and failure to do so will subject them to the penalty mentioned in the Regulation. In the interests of the share-holders and creditors of the Bank it is very necessary that the provisions of the Regulation as to the submission of the periodical balance sheets should be strictly enforced.

Proceedings of the Government of His Highness the Maharaja of Mysore,

CIRCULAR ORDER No. FL. 7215-55—S. & A. 484-08-1, DATED 7TH MAY 1909

To—The Deputy Commissioners of Districts and other Heads of Departments and Heads of Offices.

From the list of pending pension cases for several quarters past, the Government of His Highness the Maharaja observe that the various Government orders* pointing out the necessity of early disposal of pension cases by officers through whom such cases have to pass, have not produced the desired effect. The number of petitions received in the Comptroller's office from retired officials complaining of the long delay in the settlement of their pension claims, points to the same conclusion.

*Progs. No. 1391-50—P. & A. 1216, dated the 18th March 1903.
" " P. & A. 196-235, dated the 11th August 1903.
" " Fl. 7261-8003—S. & A. 662-04 6, dated the 22nd May 1905.
" " Fl. 4684 724—S. & A. 278 06-1, dated the 20th December 1906.
" " Fl. 2454-94, dated the 21st November 1908.
" " Fl. 6548-88, dated the 10th April 1909.

2. The Government of His Highness the Maharaja consider this state of affairs to be exceedingly unsatisfactory and they desire to state that in future the Heads of Offices and the Heads of Departments will be held personally responsible for avoidable delays in this connection. With a view to the speedy disposal of pension applications, the following instructions are now repeated :—

(1) The chief cause for the delay in the settlement of a pension claim is that due to the time taken in the verification of the services of non-gazetted officers. Special attention should, therefore, be given to the instructions contained in many of the orders referred to in para 1 regarding the correct posting of service registers and keeping them up to date. With the service registers properly maintained, delay may be entirely obviated in most cases by adopting the procedure of preliminary verification provided in Article 489 of the Mysore Service Regulations. It is requested that Heads of Offices will adopt this procedure in future in all cases in which it is possible to do so.

(2) Another cause for delay is that pension cases are not, in most cases, sent with complete details to the Comptroller's office and that they have to be returned once or more for additional information or corrections, etc. Before despatching an application for pension or gratuity to the Comptroller's office, the Head of an office should invariably satisfy himself that the application has been prepared in conformity with the instructions laid down in the Mysore Service Regulations. If this is done, much of the delay that is at present complained of will be avoided.

(3) Pension applications should not be dealt with as papers in the ordinary course, but their disposal as well as subsequent references from the Comptroller's office should be regarded as *urgent*.

3. If Heads of Offices and controlling officers pay proper attention to the subject, much of the delay and hardship complained of, will disappear. But as it is desirable absolutely to put an end to the present intolerable state of things, under which retired officials do not get their pensions for months together, and in some cases even for years after their retirement, the Government of His Highness are pleased to direct that the Head of every office shall furnish the Comptroller within fifteen days from the date of retirement of any person employed in that office with—

(1) an advance copy of the first and second pages of the pension application prepared with the fullest information that can be obtained regarding service, without delay,

(2) a duplicate last-pay certificate, and

(3) an explanatory memo of doubtful points in connection with the service.

In the case of Heads of Offices subordinate to a departmental controlling officer, the above papers should pass through the Head of the Department, who should pass them on to the Comptroller within one week of their receipt in every case with his remarks, if he has any to offer.

Financial (Salaries and Allowances), dated 7th May 1909.

4. The Comptroller will thus have sufficient materials for the grant of an anticipatory pension in every case within one month of the officer's retirement and such pensions should be freely granted. The applicant should also be distinctly told at the time of retirement by the Head of his office that he should apply to the Comptroller for an anticipatory pension if he wants payment of pension at once. The Comptroller cannot at present freely exercise his powers of granting anticipatory pensions though some retired officials apply for it, as the necessary information is not available without reference to the Head of the Office and without considerable delay in many cases.

5. The fact of the grant of an anticipatory pension should in no way delay the submission of the formal application which should be done under standing orders within three months at the most of an officer's retirement.

J. S. CHAKRAVARTI,
Financial Secretary.

The following letters from the Deputy Commissioners of Districts reporting on the working of the Merchandise Marks Regulation and the Rules framed thereunder during the year 1907-08 :—

1. Letter No. 79, dated the 31st August 1908, from the Deputy Commissioner, Kadur District, submitting a statement showing the results of the examination of goods during the year 1907-08 under Rule XIV of the Rules framed under the Merchandise Marks Regulation.

2. Letter No. 1420—715, dated the 14th September 1908, from the Deputy Commissioner, Kolar District, stating that no cases or complaints under the Regulation and the Rules framed thereunder were reported during the year.

3. Letter No. 153, dated 16th September 1908, from the Deputy Commissioner, Mysore District, stating that no cases of infringement of the provisions of the Regulation and the Rules framed thereunder have been reported in regard to the articles imported into his district during the year 1907-08 and that there are no weaving or spinning factories in the district calling for an application of the provisions of Section 10 of the Regulation.

4. Letter No. 162—92, dated 16th September 1908, from the Deputy Commissioner, Shimoga District, submitting a statement showing the result of inspection of shops in his district conducted during the year 1907-08.

5. Letter No. 153, dated 21st September 1908, from the Deputy Commissioner, Chitaldrug District, stating that the only officer who inspected the shops in his district was the Assistant Commissioner of Davangere Sub-Division, who inspected three shops at Hosdurga and one at Jagalur and that better attention will be given to the provisions of the Regulation during the current official year.

6. Letter No. 166, dated 23rd October 1908, from the Deputy Commissioner, Tumkur District, reporting that there were no factories in the district for the manufacture of piece-goods or yarns during the year 1907-08.

7. Letter No. 192—S., dated the 16th December 1908, from the Deputy Commissioner, Hassan District, submitting a report on the Regulation and stating that Mr. S. Narayana Rao, Assistant Superintendent of Police, inspected twenty shops during the year under report and that there were no prosecutions for any infringement of the provisions of the Regulation or Rules framed thereunder.

8. Letter No. S. 462, dated 24th March 1909, from the Deputy Commissioner, Bangalore District, stating that no instances were reported in which the descriptions of piece-goods given by the several manufacturing proprietors did not tally with the actual measurements.

No. J. 3416-23—LEGIS. 13-08-9, DATED BANGALORE, 5TH MAY 1909.

ORDER THEREON.—Recorded.

2. The only officer that sent up his report within the prescribed time, *viz.*, 1st September, was the Deputy Commissioner of Kadur. The others were all behind time, the delay in the case of the Hassan and Bangalore Districts being particularly bad.

3. The work of inspection done by the District Officers was equally unsatisfactory except in the districts of Kadur and Hassan, where the Amildars and the Assistant Superintendent of Police respectively inspected some of the cloth shops. The report of the Deputy Commissioner of Tumkur is again vague and does not show whether any inspection work was done at all in his district, while the Deputy Commissioner of Kolar reports that piece-goods were examined as usual at all taluk head-quarters when levying octroi duty on them. The Deputy Commissioner of Chitaldrug admits that the work of inspection in his district was unsatisfactory.

Judicial and Legislative (Legislation), dated 5th May 1909.

4. Government fear that the Deputy Commissioners have not fully realised the importance of the work of inspection under the Merchandise Marks Regulation and trust that they will pay more attention to this work than they have been doing hitherto. In future reports, the number of shops actually inspected and the result of the inspection should be invariably noted for the information of the Government.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter No. 5988—591, dated the 23rd March 1908, from Mr. F. E. C. Carr, late Inspector-General of Police, submitting proposals for the redistribution and reallocation of the Police Force in the Districts and Cities of Bangalore and Mysore :—

"1. In continuation of this office letter No. 98—12, dated 6th July 1907, I have the honour to forward herewith proposition statements with maps * *in re* the Redistribution and Investigating Centre Schemes for the districts of Mysore and Bangalore, and the Bangalore City.

* Will follow.

2. *Mysore District* (including the French Rocks Circle).—No additional cost is proposed; in fact, there will be a small savings of Rs. 16 per mensem, or Rs. 192 per annum in carrying out the schemes in this district and the sub-division. I trust, therefore, that Government will accord early sanction to these proposals.

3. *Bangalore District.*—The present proposals result in a net increase of Rs. 28 per mensem, or Rs. 336 per annum, in the Bangalore District, which can be partly met from the savings of Rs. 192 shown under the Mysore District.

4. *Bangalore City.*—This is the most important scheme in the whole Province, and has therefore been delayed to the last, so that I might be guided by the experience gained in working out all the district proposals, and after consulting with the District Superintendent of Police and the Deputy Commissioner Mr. Sparkes. The scheme will involve a very considerable increase in expenditure of Rs. 1,946-8-0 per mensem or Rs. 23,358 per annum, which, however, cannot be avoided owing to the need for extra Police in the new Extensions in the City which have been growing so rapidly during the last few years, so that the Force now at our disposal is wholly inadequate. The main items of increased cost will be due to—

(*a*) The number of Inspectors being brought up from 3 to 6. The reasons for the increase are clearly demonstrated in the Superintendent's memo (copy enclosed) in the details of which I fully concur. The special attention of Government is drawn to the comparative figures in the Cantonment, where it will be seen that there are according to the present scale *17 Inspectors and Sub-Inspectors.*

It is proposed to divide the City and Extensions into 4 divisions with an Inspector in charge of each. In addition, a Prosecuting Inspector for the City is absolutely necessary, to look after the Court work of the City alone. The remarks of the City Magistrate and Superintendent may be perused in this connection. The Chief City Inspector will as heretofore be the right-hand man of the District Superintendent in all City work.

Special local allowances are recommended to all Inspectors serving in the City to compensate them for the more responsible work they will be called on to perform and to meet the high cost of living in Bangalore. These allowances come to Rs. 150 a month.

(*b*) The increase in the number of Head Constables, *viz.*, from 12 to 24, which will be required for the proper supervision of the work of the new stations and outposts.

(*c*) The number of Sergeants being brought up from 34 to 40. This increase is required for the proper supervision of the extended beats both by day and night, which entail much extra work on this useful class of officers.

(*d*) The total number of constables being increased from 278 to 352 which is virtually the same strength as in the Cantonment, *vide* statement attached, from which it will be seen that the area and population of the City and Cantonment are virtually the same. It is proposed to raise the pay of constables by *Re. 1 all round*, the grades being fixed at Rs. 8, 9 and 10 instead of at Rs. 7, 8 and 9 as at present. This extra pay to constables is absolutely necessary if Government wish to keep up the sanctioned strength. Even now with the inadequate number of 278 men in all, we are constantly faced with the difficulty of recruitment; which leaves us often 30 to 40 constables below the *present strength*, irrespective of casualties; this means that the work is badly done, or not done at all. The increase of pay proposed does not even equal what has been *sanctioned* for the Civil and Military Station, where the revised rates of pay are Rs. 9, 10, 11 and 12.

(*e*) A "*City charge allowance of Rs. 100 per mensem*" to be given to the District Superintendent of Police whoever he may be, or of whatever grade. In the Cantonment, which, as I have before shown, is not larger in area or population, and where the crime dealt with is in no way more important than in the City, a *separate* District Superintendent is employed, whose only other duty beyond his work in the Civil and Military Station is the overlooking of the Railway Police. Our Superintendent on the other hand has in addition to the City a heavy district to look after, a district of the same size, and as important as the district of Kolar, Hassan or Tumkur. I think that it is nothing but fair that for the extra work and extra responsibilities of the City charge he should have some compensation.

The Government have lately allowed special allowances to the Deputy Commissioner and the Vice-President of Rs. 150 and 100, respectively, for City work; while the Amildar still continues to draw the local allowance of Rs. 50, the Superintendent therefore has an equal if not greater claim to an allowance.

In this connection I would call attention to letter No. 1706—185, dated 10th November 1897, in which the then Inspector-General of Police recommended an allowance of Rs. 100 to the District Superintendent of Police for charge of the City. (Copy enclosed for information.)

5. In conclusion I would very strongly impress on Government the fact that unless the above schemes are carried out in their entirety, the work of the Police especially in the Bangalore City will not be efficient; and the public will have fair grounds for complaint that their interests and safety are not being properly safeguarded.

6. Our scheme for Bangalore City, if my proposals are accepted, will cost *Rs. 14,500 less* per annum than the present revised expenditure in the Civil and Military Station of Bangalore.

MEMORANDUM.

The general features of the revision scheme are an increase in the number of Jamadars and a decrease in the number of Dafadars who, it is hereafter proposed, should not independently handle any case. With this object in view, the number of Jamadars has been increased by 12.

2. Three investigating centres have been proposed for the important taluks of Bangalore and Kankanhalli. The others have been each provided with two Investigating Centres in consideration of the exposed situation and of the peculiar circumstances influencing the preventive and detective branches of the Police work of these taluks. The sub-taluk of Closepet is smaller in extent and the crime is also light. It has therefore been proposed that the Inspector should personally be in charge of a range, supervising at the same time the work of a Jamadar in charge of another range. No additional Jamadar has therefore been proposed for Closepet.

3. Advantage has been taken of the re-arrangement to transfer stations from places where they were no longer required to places which had risen in importance since the Police was first organised in the district, and in other cases the allocation has been recast. These retrenchments result in a saving which goes to reduce to an appreciable extent the cost of the increase of strength proposed for the District Reserve.

4. As good training in drill is very essential to a Policeman, a Drill Instructor is set apart for each taluk on Rs. 8+Rs. 2 allowance per mensem out of the allocated strength.

5. The net result of all these proposals for the whole district is an increase of Rs. 28 per mensem or Rs. 336 per annum.

(Sd.) L. KRISHNA RAO,
Dt. Supt. of Police, Bangalore.

28th June 1907.

Bangalore Taluk.—At present the taluk has two Head Stations and nine Sub-Stations Two more Sub-Stations, Tarabanhalli and Rajankunte, have recently been added to the taluk by Government Proceedings No. R. 15365—L. R. 678-05-4, dated 3rd May 1906. The taluk is a large one covering more than 500 square miles. Two Investigating Centres are not sufficient and it is proposed to have a new Investigating Centre at Jaraganhalli with Sub Stations at Madivala, Kengeri and Talaghatpura attached. Each centre will thus have about 150 square miles, and as the country is rich and populous, I consider three centres necessary. The average number of crime for each centre will be about 40 per annum.

The proposal to transfer the station at Vartur to Whitefield has been long pending and as the settlement at Whitefield is daily growing in importance it is proposed that the station at Vartur may be transferred there.

The station at Basavangudi has been omitted in the proposal for the taluk as it will be included in the City Police.

The net result of these proposals is an increase of one Jamadar and a decrease of one Dafadar and fourteen constables or a net savings of Rs. 85 per mensem or Rs. 1,020 per annum.

(Sd.) L. KRISHNA RAO,
Dt. Supt. of Police, Bangalore.

Judicial and Legislative (Police), dated 4th May 1909.

Anekal Taluk.—This is a small but an important taluk, as it is surrounded on three sides by British Territories. It has one Head Station and four Sub-Stations.

Two of these Sub-Stations, Attibele and Hebgodi, guard the Bangalore-Salem high-road. It is proposed to convert these Sub-Stations into Outposts with 5 constables each as the road is still an important one.

Sarjapur is a flourishing town with a large Mahomedan population. It was the head-quarters of the taluk and an Investigating Centre may conveniently be located there to comprise the north-eastern half of the taluk.

Net savings Rs. 13 per mensem or Rs. 156 per annum.

(Sd.) L. KRISHNA RAO,

28th June 1907. *Dt. Supt. of Police, Bangalore.*

Dodballapur Taluk.—This taluk has an area of 340 square miles with more than 400 villages attached. The average crime is 41.

The taluk had one Head Station, 6 Sub-Stations and 2 Outposts. One of the Sub-Stations, Rajankunte, has recently been transferred to the Bangalore Taluk.

The northern parts are hilly and the famous Ghati Subramanya is situated in this taluk. Two Investigating Centres are sufficient for this taluk, one at Dodballapur to comprise all the north-eastern portion and the other at Dodbelavangala to take in all the western portion.

Hanaba was a turbulent village with a large Mahomedan population and an Outpost was therefore established there. The village is fairly settled now, and as it is equidistant from Dodballapur as well as Dodbelavangala, being 4 miles from either, it is proposed to do away with it.

The Sub-Stations at Tubagere and Sasalu may also be converted into Outposts. These are not on the highways and will be sufficiently manned by one 1st class constable and two 2nd class constables each. The Sub-Station at Chennadevi is only 8 miles from Dodballapur and the next station on the road, Dobspet, is also 8 miles. The country is open and peaceful and an Outpost to guard the road is all that is necessary.

The net result of these proposals is an increase of one Jamadar and a decrease of 4 Dafadars or a savings of Rs. 10 per month or Rs. 120 per annum.

(Sd.) L. KRISHNA RAO,

28th June 1907. *Dt. Supt. of Police, Bangalore.*

Devanhalli Taluk.—Budigere and Mudagurki have decreased in importance and Out-posts with one 1st class constable and two 2nd class constables each will suffice.

As Jala has since become important, it is proposed to make it an Investigating Centre with Budigere as an Outpost.

The net increase is Rs. 4 per month or Rs. 48 per annum.

(Sd.) L. KRISHNA RAO,

28th June 1907. *Dt. Supt. of Police, Bangalore.*

Hoskote Taluk.—This is a fairly big taluk covering over nearly 300 square miles. The Madras-Bangalore Railway passes through the south of the taluk.

There are at present one Head Station, 5 Sub-Stations and one Outpost in the taluk. As the taluk is not one compact block, the greatest length being nearly 30 miles, it has been found necessary to propose two Investigating Centres one at Hoskote, one at Satyavar.

The Station at Nandagudi is too near to the next Police Station in the Kolar District, Jangamkote, being only 7 miles. The Station may therefore be shifted to Satyavara, which may be made the Investigating Centre for the northern parts of the taluk. The Stations at Sulibele and Muguvala may be converted into Outposts and attached to this centre.

Devangundi is a Railway Station and a Sub-Station is necessary. A small Outpost at Kadgodi will be attached to it.

Hoskote Investigating Centre will have Bidarhalli which will be retained as an Out-post.

The net savings by these proposals is Rs. 5 per month or Rs. 60 per annum; but considering the great distances in the taluk, no further reduction can safely be recommended.

(Sd.) L. KRISHNA RAO,

28th June 1907. *Dt. Supt. of Police, Bangalore.*

Nelamangala Taluk.—This taluk extends from south-east to north-west with an average breadth of 8 miles. The Bangalore-Harihar road passes through the taluk.

There were one Head Station and 6 Sub-Stations. One of the Sub-Stations, Tarabanhalli, has been added to the Bangalore Taluk. There are at present 4 stations guarding the high-road, *viz.*, Madavar, Nelamangala, Begur and Dobspet. Owing to the advent of the Railway, the traffic on the road has very much decreased and it is proposed to convert Madavar and Begur into Outposts.

Sondekoppa is a large village and, though not on the high-road, is an important village. The Sub-Station may therefore be retained there.

Two Investigating Centres are proposed, one at Nelamangala to comprise the south-eastern half of the taluk and the other at Tyamagondlu to take in the north-eastern half. Tyamagondlu is a large town with an active trade. It was formerly the head-quarters of the taluk and a Head Station there is necessary.

The net result of these proposals is an increase of one Jamadar and a decrease of 2 Dafadars and 5 constables or a saving of Rs. 18 per mensem or Rs. 216 per annum.

(Sd.) L. KRISHNA RAO,
Dt. Supt. of Police, Bangalore.

28th June 1907.

Magadi Taluk.—This is a big taluk comprising more than 500 square miles. It is a hilly jungly country and communication is difficult.

At present there are one Head Station and six Sub-Stations in the taluk. Of these Chakrabhavi Sub-Station is only six miles from Magadi and has very light crime. The Sub-Station may therefore be abolished.

The Sub-Station at Bachenahatti is only four miles from Magady. It was established to guard the Hassan-Bangalore road which still retains importance. An Outpost may therefore be retained there.

Talekere is only four miles from Kudur which becomes an Investigating Centre under the present proposal. An Outpost may be retained there to guard the road.

As the taluk is a big one, two ranges are necessary—one at Magadi to take in all the southern half and the other at Kudur to comprise the northern half of the taluk. Further reduction is not advisable as the taluk is an important one.

The net savings in the taluk is only Rs. 8 per mensem.

(Sd.) L. KRISHNA RAO,
Dt. Supt. of Police, Bangalore.

28th June 1907.

Closepet Sub-Taluk.—There are at present one Head Station and two Sub-Stations in the Taluk.

The Station at Vadavatta is too near Bidadi and the outlying hilly parts are left unprotected. It is therefore proposed to transfer the Station to Jalamangala, a large village in the north-western portion of the taluk. Vadavatta may be retained as an Outpost with two constables. The Outpost of Tenginakal, Channapatna Taluk, may be transferred to Kailancha in this taluk.

As the taluk is a small one, it is not necessary to have two Jamadars. The Inspector will be in charge of the Closepet Centre and the Jamadar in charge of Bidadi Centre.

The net increase by these proposals is Rs. 5 a month or Rs. 60 per annum.

(Sd.) L. KRISHNA RAO,
Dt. Supt. of Police, Bangalore.

28th June 1907.

Channapatna Taluk.—There are at present one Head Station, four Sub-Stations and one Outpost. The taluk is an important one with a large Mahomedan population.

The Outpost at Tenginakal may be advantageously added on to the Closepet Investigating Centre and removed to a point along the Closepet-Kankanhalli road, where there is no Outpost at present. Several villages attached to Tenginakal Outpost have since been included in Closepet Range under the orders of Government.

Two Investigating Centres, one at Channapatna and the other at Akkur, are proposed.

The net increase is Rs. 6 per mensem or Rs. 72 per annum.

(Sd). L. KRISHNA RAO,
Dt. Supt. of Police, Bangalore.

28th June 1907.

Judicial and Legislative (Police), dated 4th May 1909.

Kankanhalli Taluk.—This is a large and hilly taluk covering over nearly 600 square miles. Communication between the parts is difficult and at times wholly cut off by the swollen streams.

At present there are two ranges, one at Kankanhalli and the other at Kodihalli. There are seven Sub-Stations. Of these the Sub-Station at Mulhalli is about six miles from Kodihalli and may be abolished.

Three Investigating Centres are absolutely necessary for the taluk, one at Kankanhalli, one at Kodihalli, and the third at Harohalli. The Sub-Station at Kaglipur is unnecessary, as very few cases are ever reported in these parts. It may therefore be converted into an Outpost.

The net result of these proposals is a saving of Rs. 11 per mensem or Rs. 132 per annum.

(Sd). L. KRISHNA RAO,
Dt. Supt. of Police, Bangalore.

28th June 1907.

District Reserve.—At present almost the whole of the District Reserve is used up in detailing orderlies to the Deputy Commissioner, the Superintendent and the various Magistrates. For any emergency and even for ordinary duties, such as the Birasandra Military Camp, the services of the Special Reserve have to be requisitioned for. Duties such as escorting prisoners from Central Jail to any Court are at present assigned to the City Police and men are drawn away from their legitimate duties and great inconvenience is caused. To obviate all this, a large increase in the District Reserve has been proposed. Of the fifty constables proposed for the District Reserve, so many as twenty are absorbed in orderly duty, five constables are at present doing duty as writers in the office and only twenty-five constables will be left to attend to the numerous requisitions from the Central Jail for escort duty and for miscellaneous duties. Of the eight Dafadars proposed, two will be orderly Dafadars, one will be in charge of the store and will work in the office and one, who is also to be the Drill Instructor, will be in charge of the School. The remainder will be detailed to officer the escort parties.

The Gang revision work in the district has already proceeded a good way and the History Sheets of most of the permanent Gangs in the district have been written up. The work of collating and reducing to order the various accounts written by the special duty dafadars and the work of permanently recording in revised Gang Register the result of their labours has now to be taken in hand, and at first at least, one Jamadar and two Dafadars (all picked men) will be necessary to aid the Gang Inspector.

When the Gang work is complete, it will remain for the office to continue to record carefully the movements and further history of the Gangs and I have therefore proposed one Jamadar permanently for Gang duty. The other will attend to the service registers and the usual duties of a Reserve Jamadar. The third will be in charge of the stores, the work being specially heavy in this district. The fourth will be required to be always ready for relieving any Inspector who wishes to go on leave and for other office and special duties.

MEMORANDUM.

Proposals for the re-organization and redistribution of the City Police Force, Bangalore.

The sanctioned scale for the City of Bangalore at present is—

1 Chief Inspector,
2 Inspectors,
12 Head Constables,
34 Sergeants,
278 Constables,

and these are at present distributed as follows:—

No.	Stations or Ranges	Chief Constables or Inspectors	Head Constables	Sergeants	Constables
1	Central	1	3	2	41
2	Fort, Kalaspalya	...	2	5	54
3	Chamarajpet, Mysore Road Outpost, Gavipur Outpost	...	1	4	41
4	Kengeri Gate, Upperpet	...	2	5	44
5	Malleswaram	...	1	3	14
6	High Ground, Upperhalli	1	2	5	44
7	Yelahanka Gate and Ulsoor Gate	...	1	4	44

2. All the beats in the City were revised two years ago under the orders of the Inspector-General of Police and each station or range has at present four beats. The A B C system of beat introduced into the City requires 32 Constables for each station or range to work up the 4 beats at 8 Constables per beat. Allowing 12 men for miscellaneous duties, the strength of each station or range will be 44 Constables; 5 Sergeants are necessary, 4 to officer the sections and one for station duty and Outposts. The work in the City requires the presence of a Head Constable in each station throughout the day and night and 3 Head Constables are required in each station to work by turns. The allocation necessary for the satisfactory discharge of these duties is 3 Head Constables, 5 Sergeants and 44 Constables for each station or range.

3. *Basavangudi and Malleswaram.*—Basavangudi Extension is at present included in the Bangalore Taluk. The necessity for including it in the City Police is obvious. The sanctioned strength is proposed to be increased in the interests of public safety as the present make-shift arrangement under which a few extra men drawn from the Sub-Stations of the district as well as from the adjoining stations of the City are posted to Basavangudi, is not found to give satisfaction. This proposal aims at rendering the system of beat work uniform throughout the City embracing, as it now does, the two large extensions of Basavangudi and Malleswaram. The Municipal limits are further proposed to be extended in the direction of the Imperial Service Lines, and when this proposal receives the sanction of Government in due course, the sphere of Police work will be necessarily extended so as to necessitate the location of another Outpost near Munireddipalya.

4. *Chief Constables.*—Two Chief Constables were sanctioned for the City in 1881, twenty-six years ago when Bangalore City had not attained its present dimensions. Now that extensions have sprung up all round, it is impossible for two Chief Constables to manage with efficiency the work of their present ranges. If Basavangudi and Malleswaram and Munireddipalyam are also added on to the City limits, the need for additional Inspectors becomes greater than ever. Four circles are therefore proposed.

A or Fort Division to include the limits of the present Central Station, Kengeri Gate, Upparpet and Yelahanka Gate Stations.

B or High Ground Division to include Munireddipalyam, Palace, the Imperial Service Lines, Seshadripuram, Guttahalli, Malleswaram and Pindarcherry.

C or Kalaspalya Division to include Ulsoor Gate Kalaspalyam, Lal-Bagh, Mavalli and Upparhalli.

D or Basavangudi Division to include Basavangudi, Chamarajpet, Krishnarajpet (when formed), Gavipur and Mysore Road Outpost.

The existing and proposed scales are noted hereunder:—

* The establishment of the Basavangudi Station is now borne on the taluk scale.

Judicial and Legislative (Police), 4th May 1909.

5. *Prosecuting Inspector.*—Prosecution.—On an average 3 to 4 cases of the City (not to speak of the several petty cases) are posted for hearing before the City Magistrate every day and most of the cases are contested inasmuch as lawyers are invariably engaged for defence even in the simplest of cases. The District Prosecuting Inspector has been ordered to attend to the prosecution of all cases in the Courts of the First Class Magistrates and he has to attend two Courts in Bangalore and one in Closepet, and a third will shortly be started at Dodballapur. His time is fully taken up with the district cases and he cannot therefore attend the City Magistrate's Court. The Chief Constables of the City have in consequence been ordered to attend to the prosecution of cases belonging to their respective ranges by a mutual arrangement. This entails five hours' attendance at the City Magistrate's Court every day, as a case may be called up any time, and as a result the other duties connected with investigation and detection of the Chief Constables' ranges have to be neglected. I would suggest that a full-time Inspector for Court duty in the City cases may be kindly sanctioned as this would save much unnecessary waiting on the part of the Chief Constables and set them free to attend to the investigation and detection of crime.

NOTE.—The City Magistrate in his letter No. 646, dated 30th May 1907, brings to notice the unsatisfactory state of the prosecuting agency in his Court and requests that the "Government may be asked to appoint an intelligent Prosecuting Inspector" solely for his Court.

6. *City Inspector.*—The City Chief Inspector will, as at present, continue to supervise the work of the Divisional Inspectors and in fact the work of the whole staff in the City. He will personally conduct the investigation of important heinous crime and will himself conduct prosecution in very important cases. As he has four Inspectors under his control and is responsible for the work of the entire City Police, I submit that he may be given a corresponding status and that his pay may be fixed at Rs. 200-10-250.

7. *Pay of Constables.*—The pay of the constables in the City at present is far too low, considering the expense incidental to a city life. The Indian Police Commission have arrived at the conclusion that the bare "living wage" for a Constable cannot be less than Rs. 8 per month in any province. The demand for labour in Bangalore is so great that it is impossible to get the proper kind of recruits for even this pay. I would therefore propose increasing the pay of Constables by Re. 1 all round. The pay will then be Rs. 10, Rs. 9 and Rs. 8 for the three grades of Constables.

At present the subordinate City Police are graded as follows:—

		Rs.	
Head Constables,	1st grade	25+8	
Do	2nd do	20+5	
Do	3rd do	16+5	(now made 1st class Sergeants)
Sergeants,	1st do	14	
Do	2nd do	12	
Do	3rd do	10	
Constables,	1st do	9	
Do	2nd do	8	
Do	3rd do	7	

I would propose redistributing them as follows:—

		Rs.
Head Constables,	1st grade	25+8
Do	2nd do	20+8
Sergeants,	1st do	16
Do	2nd do	14
Do	3rd do	12
Constables,	1st do	10
Do	2nd do	9
Do	3rd do	8

and the grades of officers in the City will then coincide with the corresponding grades of Jamadars and Dafadars in the district and they can be changed at any time.

The Detective Staff.—This was organized in May last, with one Head Constable and 7 Constables as a tentative measure. No separate staff was sanctioned by Government. At present a few men have been drawn for this duty from the several stations. It was found that the Head Constables in charge of stations were unable to cope with the professionals who quickly disappeared with their booty and in the discharge of their preventive duties, were often unable to pursue a scent while it was still fresh. It was hoped that a select body of men with no routine work to hamper them, would be able to watch and study the ways and movements of criminals, with surer chances of success. The experiment made in this direction has amply fulfilled the expectations formed at the commencement. The small number of detectives now in the City have taken part in all the important cases of the City and the valuable clues furnished by them led to the conviction of several notorious professional criminals like Subraya Pantulu. In the cow-killing cases, the series of thefts in the High Ground limits and in many other cases, the detectives have acquitted themselves very well

and it may safely be predicted that a trained staff of picked men of character, aptitude and intelligence would prove a useful auxiliary to the regular Police Force of the City in turning out better quality of work. Detectives should watch all over the town and watch the conduct of Known Depredators, suspects, suspicious fresh arrivals and must have thorough knowledge of men and their character. The Detective staff required for the City may be roughly fixed at—

1 Inspector.
2 Head Constables.
4 Sergeants and 25 men.

But while the extensions are fully formed up, the work of the Detective Branch can be attended to by one of the Divisional Inspectors aided by select men from the stations as at present. The proposal may therefore be deferred.

9. Considering how rapidly Bangalore City is growing in dimensions and rising in importance, the question of additional cost ought not to be allowed to stand in the way of improving the tone, the morale and the efficiency of the regular and the detective branches of the City Police Force.

10. The statement below shows the area, population and cost of Police of the City and the Civil and Military Station, Bangalore :—

—	Area	Population	Cost of Police	Remarks
Civil and Military Station	11	80,061	77,598	The population according to the Census of 1901 is 10,061 but 20,000 of these are under Military discipline and may be discounted for Police purposes.
City	10½	80,000	63,000	The Census of 1901 gives the population at 69,447 but the normal figure is 80,000.

Statement A attached shows comparatively the strength of the Civil and Military Station Police and the force proposed for the City.

It will be seen that while the City is slightly smaller in area, the density of population is nearly the same as that of the Civil and Military Station. Neverthless, the cost of the Police proposed for the City falls below 19 per cent of that of the Civil and Military Station. The proposals have been worked out with a strict view to economy and in the interests of public safety, the reforms proposed cannot without serious detriment be deferred any longer.

A consolidated statement showing the present and proposed scale and the cost is hereto appended for kind reference.

Judicial and Legislative (Police), dated 4th May 1909.

Letter No. 403, dated 25th December 1907, from M. Kantaraj Urs, Esq., B.A., Deputy Commissioner, Mysore District, to F. E. C. Carr, Esq., Inspector-General of Police in Mysore.

With reference to your letter No. 8613—669, dated 6th June 1907, to the District Superintendent of Police, calling for the submission of fresh proposals in connection with the Investigation Centres, I have the honor to enclose herein the several statements showing the redistribution of the Force. I generally agree with old proposals, but with the following modifications :—

(1) In the Heggaddevankote Taluk, Kakankote is too important a place to be reduced to an Outpost, as, apart from the fact that it is a place always frequented by important personages for Shikar and therefore requiring a responsible officer on the spot, there would be no officer to attend to emergencies between Antarsante and Bavali, a distance of 20½ miles. I would therefore propose the addition of a dafadar to the station as the proposed strength of three constables does not admit of any reduction under that head.

(2) In the Hunsur Taluk, Gavadagere is an important place with a lot of factions. Besides this, the traffic between Hunsur and Yedatore has often been molested by criminal classes on that highway, and hence the presence of a dafadar there is very desirable. I would therefore retain Gavadagere as a Sub-Station substituting a dafadar for the 1st class constable in the proposed statement, entailing thereby an excess of only Rs. 4.

(3) Similarly the road between Mysore and T.-Narsipur is also an important one, and as several offences have been committed on this road which is 20½ miles long, Kilanpur deserves to be retained as a Sub-Station. But here again, to save cost, a dafadar may be substituted for the 1st class constable in the proposed statement.

(4) In the T.-Narsipur Taluk, Rangasamudra is an important and big village and has no Police Station or Outpost within a distance of 7 or 8 miles on this sid of the river Cauvery. It is also a troublesome place. I would therefore propose an Outpost with two constables in Rangasamudra.

(5) In the Nanjangud Taluk a new Outpost at Kalale, as per your instructions, has also been provided for with two 2nd class constables.

(6) In the Gundlupet Taluk in the old proposals *Hanumantarayangudi* has been shown as a Head Station, Maddur as a Sub-Station and Bandipur as an Outpost. But Maddur is the centre of a number of important and prosperous villages and being more healthy and possessing greater water convenience than Hanumantarayangudi, it has also the further advantage of possessing a good set of lines for the men. By making this the Head Station, not only would the health of the men be better maintained, but it would save the cost of constructing fresh lines at Hanumantarayangudi. I would therefore propose Maddur as a Head Station, Hanumantarayangudi which is only 7½ miles from Gundlupet as an Outpost and retain Bandipur as a Sub-Station, taking the distance between Gundlupet and Kekkanhalla, Bandipur comes in very conveniently as a Sub-Station.

With these modifications the proposals may be adopted. Out of the 1st class constables allotted to the taluks in the new proposals, provision has been made for a Drill Instructor in each taluk, with an extra allowance of Rs. 2. In the District Reserve two 1st class dafadars have been proposed, one of whom will be set apart as Drill Instructor. The total cost of the strength thus altered in the fresh proposals comes to Rs. 4,251. It has not been possible to effect any savings consistent with efficiency and the actual requirements.

NOTE—Savings from the French Rocks Circle is Rs. 77 per mensem
Net savings from the Mysore District (including the French Rocks Circle) is Rs. 16 per mensem or Rs. 192 per annum

Proceedings of the Government of His Highness the Maharaja of Mysore,

Letter No. 568, dated 27th November 1907, from A. C. Basavaraja Urs, Esq., Assistant Superintendent of Police, French Rocks Circle, to F. E. C. Carr, Esq., Inspector-General of Police in Mysore.

I have the honor to submit herewith proposals for the redistribution and re-allocation of the Police Force in the French Rocks Circle.

Proposition statements showing the existing and proposed Investigation Centres, Sub-Stations and Outposts with their allocations are hereto attached. The proposed scheme, if sanctioned, will result in a saving in cost of Rs. 77 per mensem or Rs. 924 per annum, and in men of eleven 1st class Constables, nine 2nd class Constables and fifteen Dafadars.

In the proposed scheme, to every taluk there are given two Investigation Centres except to French Rocks and Seringapatam, which, by reason of their small area, are given only one Centre each.

This Circle is the head-quarters of a First Class Magistrate, having jurisdiction over five taluks and as such, there is a lock-up here with many under-trial prisoners; and as the French Rocks Sub-Taluk Police detail men for guarding them, frequent complaints are received from them regarding want of men. The proposed increase in the District Reserve is intended to give a full-time establishment for the special work.

There is no regular Treasury at the head-quarters with Barr Sepoys for guarding it. The Police cash box and the Court box containing properties relating to cases are guarded by the Reserve Police only.

The increased strength proposed for the Reserve is intended to meet the above duties and also to meet the casualties, to carry out the duties of escort to prisoners to meet emergencies and other very frequent special duties in the Division in connection with the state visits of the Governor-General, Governors, Chiefs as well as the Royalties to the ruins of Seringapatam and the falls at Sivasamudram.

A Jamadar also is proposed for the Reserve to attend to the prosecution of ordinary cases in Courts, to the various extra duties and relieve the Head-quarter Inspector of many minor duties which take up much of his time.

Like the Kadur District, this circle contains five taluks and a sub-taluk. Whereas Kadur District Police Office contains the full establishment, this circle office is wanting in a Head Munshi on Rs. 40 and a full-time Prosecuting Inspector. The need for both is keenly felt owing to pressure of work and to cope with the increase of work. If no Head Munshi on Rs. 40 could be sanctioned out of the savings of Rs. 77 per mensem at least an additional second grade Jamadar may be given out of the proposed savings for office work, for detection and investigation work when required and to meet casualties.

The Outposts proposed in various taluks are intended to safeguard the heavy road traffic.

The scheme, if sanctioned, will work well and will not entail additional cost to Government.

The abolition of the stations of Gajjalgere and Nidagatta on the Bangalore-Mysore road and of Sivahalli which is only six miles from Mandya and in the interior of the same taluk, is also proposed.

Before the extension of Railway from Bangalore to Mysore, there was a regular heavy cart traffic on the road, but recently the same has gone down considerably. The distance of Bangalore-Mysore road within the limits of this circle is about 42 miles and there are seven stations on the road belonging to this circle. Nidaghata Station is the first from Bangalore side and is only four miles from Maddur and eight miles from Channapatna. This part of the road can be guarded by two constables, one from Maddur and one from Channapatna meeting midway, with the help of two Ookad watchmen. Gajjalgere is the third station on the same road and is four miles from Maddur and eight miles from Mandya, and similarly two constables, one from Maddur and one from Mandya meeting midway, and with the help of the Ookad watchmen, can patrol the distance. The other stations Lingarajachatra, and Ganangur on the same road have been proposed to be converted into Outposts with a small Police force to guard on either side of the road. The present station at Sivahalli is only six miles from Mandya and is not on any of the high-roads The constables of Mandya and Basaral can patrol the villages attached to this station, and it is also proposed to convert this station into an Ookad.

The separate existence with a Dafadar of the town station of Malvalli is proposed to be done away with as the Kasaba town can be managed by the Police officers and men available at the head-quarters of the taluk, the strength of the Police at head-quarters having been comensurately increased in the proposal.

Judicial and Legislative (Police), dated 4th May 1909.

It is also proposed to convert Nagathihalli Station of the Nagamangala Taluk into an Outpost as it is between Nelligere and Hirisave Stations on the road to Channarayapatna.

The Sub-Station of Bukankere in Krishnarajpete Taluk is proposed to be converted into an Outpost as it is only five miles from Chinkurali, the proposed Investigation Centre.

The Sub-Stations of Honakere on the French-Rocks-Nagamangala road, and of Damadahalli on the French Rocks-Chinkurli road are proposed to be converted into Outposts, as there is nothing very important with them except guarding the road traffic.

Kastur Station, which is midway between Huliyandurga Station of the Tumkur District and Maddur, is proposed to be converted into an Outpost as the road on either side may be watched by the constables.

Rottikatta Station is proposed as an Investigation Centre as it is very near to Bluff on the road, and Boppagundanapura may be made an Outpost, being only five miles from Rottikatta across country and seven miles by road.

Kirigaval, which is only nine miles from Malvalli and one mile away from Malvalli-Bannur road, is also proposed to be converted into an Outpost for the same reason.

Bellur and Paschimavahini are proposed to be converted into Outposts again.

Net savings of Rs. 77 per mensem or Rs. 924 per annum.

Judicial and Legislative (Police), dated 4th May 1909.

Letter No. 3062—314, dated the 7th December 1908, from Mr. D. Devaraj Urs, he present Inspector-General, suggesting some modifications in the proposals already submitted regarding the Police Force of the Bangalore and Mysore Cities :—

1. In continuation of my letter No. 7139—714, dated 18th May 1908, I have the honor o state that the revision of the Police for the Cities of Bangalore and Mysore has been ngaging my attention for some time past I regret the delay in the submission of this eport, as I had to bestow some time for the consideration of the question, being as it is a ery important one. As has already been stated by Mr. Carr, it indeed forms the most mportant part of the scheme for the re-organization of the Police for the whole Province. I gree with his proposals in the main, except in one or two points noted below, which are, n my opinion, very necessary, as Bangalore is becoming a more and more important centre f activity, with the extensions growing larger every day.

2. In speaking of the Presidency Towns, the Police Commission said "Large Cities 'must always be important foci of crime and a favourite retreat for dangerous criminals, 'and this *a priori* conclusion is confirmed by the evidence before the Commission." Bangalore and Mysore are our Presidency Towns and as such the Police Scheme for these Cities, hould, of course, be of a special nature, though on a somewhat smaller scale compared with he large Cities like Bombay, Madras, etc.

3. (*a*) For the *Bangalore City*, I beg to propose, and that after careful consideration, hat it is high time, that the Police should have an independent control, and that its contabulary should be given a higher rate of pay.

(*b*) At present, the District Superintendent of Police, Bangalore, has, in addition to the District work, the control of the City Police as well. So long as this continues, I am afraid o think, and there is every reason to believe, that either the one or the other ought to suffer, o far at least as supervision is concerned, not to speak of the directing of investigation. The District work, by itself, is very heavy and more than ample for one Superintendent. I would, therefore, very strongly urge the appointment of a Superintendent, or an Assistant Superintendent, who should pay his undivided attention to the City itself. The Civil and Military Station, whose area and population are almost the same as that of the Bangalore City, has a full-timed and highly paid Superintendent for itself, and a Force consisting of officers and men as noted in the margin * and costing Rs. 77,598 per annum, whereas the present scale of the Bangalore City Police consists of officers and men as per margin † and costs only Rs. 39,642 per annum. The appointment, therefore, of a full-timed officer of the status of a Superintendent, or an Assistant Superintendent to the City, is, I believe, a very necessary step and a pressing one too.

* 3 Inspectors.
14 Sub-Inspectors.
29 Head Constables.
23 Sergeants, and 353 men.

† 3 Inspectors.
6 Head Constables.
40 Sergeants and 278 men.

(*c*) With the appointment of such an officer, I would, however, recommend the abolition of the appointment of the Chief Inspector which would then become superfluous. He is, though highly paid, without the rank and status of a Gazetted Officer, and is nothing more than an ordinary Inspector, except that he gets higher pay. He has under him two or more Inspectors who, for the sake of convenience, are styled as Division Inspectors. This arrangement, I need hardly say, is not conducive to discipline. I therefore propose to do away with the appointment of Chief Inspector. I would have the City divided into 4 Divisions under 4 independent Inspectors and above them all, a Superintendent, or an Assistant Superintendent, solely for the City work.

(*d*) I would not also recommend the grant of local allowance to the Superintendent and the City Inspectors which Mr. Carr has done. In the Civil and Military Station, and in the Presidency Towns, they are not given any local allowances except under exceptional circumstances. It is enough if Inspectors of higher grades are posted to the City, and these get a higher rate of horse allowance of Rs. 20, while in the districts, they get only Rs. 15.

(*e*) I would next strongly urge upon Government the absolute necessity to have our men given the same rates of pay as is in the Civil and Military Station, where they have 4 grades, *viz.*, Rs. 9, 10, 11 and 12. But for the present, for the Bangalore City, I would only propose 3 grades, *viz.*, Rs. 9, 10, and 11. I need hardly dwell at any length on the absolute necessity for this step. The cost of living has become very high, consequent on the tremendous increase in the price of even the barest necessaries. The conditions of service have also become very exacting with the increased efficiency of the supervising staff. If, in these circumstances, better pay to men is not given, the best available men will be attracted to the Civil and Military Station and we shall have only men of the inferior sort. This, it need not be said, will, in the long run, tell seriously upon the efficiency of the Force. Moreover, in the City, even the day-labourers get better wages, *viz.*, Rs. 10 and above, and therefore, there is no attraction for Police service as it is.

Financially, the difference between Mr. Carr's proposals and mine is this :—

would have 5 Inspectors against 6 of his, 4 for the four Divisions into which the City is proposed to be divided and one for the prosecution work: over these, there will be a Superintendent whose average pay may be estimated at Rs. 350 per mensem. An increase of one rupee all round to the pay of the constabulary over that proposed by Mr. Carr, entails an additional cost of Rs. 352 per mensem; as against this increase, there will be a saving as shown below. By the abolition of the post of Chief Inspector and doing away with the grant of local allowances to the Superintendent and to the Division Inspectors which Mr. Carr has recommended, there will be a saving of Rs. 470 per mensem. If from this sum, the sum of Rs. 352, being the increase by enhancing the pay of the constables, be deducted, the difference of Rs. 118 will go towards meeting a portion of the pay of the Superintendent proposed to be appointed for the City. Thus the above proposal of mine will only entail an additional cost of Rs 232 per mensem or Rs. 2,784 per annum, which can be partly covered by the savings of Rs. 142-8-0 per mensem, or Rs. 1,710 per annum, now proposed to be effected in the Mysore District. The extra cost of Rs. 1,074 per annum, I trust, the Government will not consider a heavy charge, considering the degree of efficiency likely to be infused into all the grades of the Force.

5. *Mysore City.*—(*a*) The same remarks as in the case of the District Superintendent of Police, Bangalore District, also apply with equal force to the District Superintendent of Police, Mysore As it is, District Superintendent of Police, Mysore, for similar reasons, cannot exercise closer supervision over the work of the City Police. I would, therefore, propose a full-timed Assistant Superintendent of Police for the City, doing away with the appointment of Chief Inspector and retaining the three Division Inspectors who will work under the City Assistant Superintendent of Police direct.

(*b*) To effect this desirable change, I propose abolishing the French Rocks Sub-Division and bringing it under the control of the District Superintendent of Police, Mysore. The Assistant Superintendent of Police, French Rocks, will then be available for the Mysore City, of which he will be in sole charge. The Deputy Commissioner of Mysore, who was consulted in the matter, says in his D. O., dated 2nd December 1908, as follows :—

'I quite agree with you in thinking that the French Rocks Circle should cease to exist as an independent unit and be absorbed in the District proper, strengthening the office of the District Superintendent of Police by giving him at least a couple of hands more to cope with the additional work.

'I think the Mysore City is as important as Bangalore, if not more, for more than one reason of which you are doubtless aware personally. So, I should propose that the City should be in charge of an Assistant Superintendent of Police, and not a Probationary Assistant Superintendent of Police. A Probationary Assistant Superintendent of Police may be attached to the office of the District Superintendent of Police to learn work and to look after the current duties when the District Superintedent of Police is absent from headquarters.'

(*c*) There are at present two Probationary Assistant Superintendents in the Department and I propose attaching one of these permanently to the Mysore District, to assist the District Superintendent of Police. With a full-timed Assistant Superintendent of Police for the City and with a Probationary Assistant Superintendent of Police permanently attached to his district for training, the District Superintendent of Police will, I am sure, find it much easier to manage the District work more thoroughly and efficiently.

(*d*) The above proposal involves no extra expenditure but results in a saving of Rs. 207-8-0 per mensem being the average pay and allowance of the Chief Inspector proposed to be done away with.

6. (*a*) The present strength of the Police for the Mysore City is quite adequate and requires no addition or alteration beyond the appointment of a Prosecuting Inspector solely for the City and the grant of horse allowances to each of the Division Inspectors at Rs. 20 per mensem. I forward herewith for the information of Government copies of the marginally noted letters received from the Deputy Commissioner in the matter. I concur with him in thinking that a Prosecuting Inspector for the City is quite indispensable and I accordingly propose the appointment of an Inspector on Rs. 60 per mensem.

Letters Nos. A and 127, dated 10th and 29th August 1908, respectively.

(*b*) As pointed out by the Deputy Commissioner, it is very necessary that all the Division Inspectors of the City should be required to maintain horses, as otherwise they cannot perform their duties satisfactorily. Further, under Government Proceedings No. J. 1760-1—Police 132 of 03-04-9, dated 4-5th January 1905, all Inspectors are bound to maintain serviceable horses and I now propose to bring them under this rule and hence I have

Judicial and Legislative (Police), dated 4th May 1909.

recommended the grant of horse allowance to each of them. The above proposals involve an additional cost of Rs. 120 per mensem, which can be met from Rs. 207-8-0 savings calculated to accrue by the abolition of the appointment of Chief Inspector.

With the abolition of the French Rocks Circle, there will be a savings of Rs. 125, the cost of the marginally noted office establishment attached to the Circle. The total savings in the Mysore District according to the revision is Rs. 212-8-0, *i.e.*, Rs. 125 under the abolition of the French Rocks Circle and Rs. 87-8-0 under the Mysore City Force due to the abolition of the post of Chief Inspector.

(c) As proposed by the Deputy Commissioner, Mysore District, the office establishment of the District Superintendent of Police, Mysore, may be strengthened by two hands of Rs. 25 and 15 per mensem. Also a clerk on Rs. 30 may be given to the Assisatnt Superintendent of Police for Mysore City. These two items of expenditure come to Rs. 70 and leave a balance of Rs. 142-8-0 which will be available for being utilized towards the extra expenditure which the Government will have to incur by the appointment of a full-timed Superintendent for the Bangalore City. The net increase in expenditure will be Rs. 1,074 per annum.

7. The maps showing the Investigation Centre Ranges for the Districts of Bangalore and Mysore including French Rocks together with the proposition statements, embodying the changes, are herewith forwarded.

8. I request that you will be so good as to obtain the early sanction of Government to the proposals."

Proceedings of the Government of His Highness the Maharaja of Mysore,

No. J. 3381-90—Police 189-07-5, dated Bangalore, 4th May 1909.

Order thereon.—The formation of investigating centres for the remaining six districts of the State having already been sanctioned by Government in Proceedings No. J. 2968-77—Police 14-07-2, dated the 27th March 1908, Mr. Carr, the late Inspector-General of Police, submitted a scheme for the redistribution and re-allocation of the Police Force and for the formation of investigating centres in the Bangalore and Mysore Districts, with separate proposals for the Bangalore and Mysore Cities. Mr. D. Devaraj Urs, the present Inspector-General, concurs in the proposals of his predecessor so far as they relate to the Bangalore and Mysore Districts, but has submitted modified proposals for the Bangalore and Mysore Cities. Government are pleased to sanction the proposals involving an additional recurring expenditure of Rs. 144 per annum so far as they relate to the Bangalore and Mysore Districts. The scheme will come into operation with effect from the beginning of the next official year. Due provision should be made for the extra expenditure in the next and future budgets. The proposals regarding the Cities of Bangalore and Mysore are reserved by Government for further consideration, and separate orders thereon will be issued in due course.

K. S. CHANDRASEKHARA AIYAR,
Secy. to Govt., Gen. & Rev. Depts.

Letter No. 5484—511, dated the 23rd March 1909, from the Inspector-General of Police in Mysore, forwarding a Report on the working of the Mysore Arms Regulation for the calendar year 1908 :—

1. The total number of licenses issued during the year ending 31st December 1908 was 18,500 against 16,238, showing a net increase of 2,262, licenses as detailed below :—

District	Districtwar		Classwar		
	Increase	Decrease	Form number	Increase	Decrease
Bangalore	452	...	I	...	35
Kolar	49	...	II	...	3
Tumkur	...	12	III	2	...
Mysore	...	69	IV	753	...
Hassan	...	82	V	...	2
Shimoga	1,662	...	VI	26	...
Kadur	207	...	VII	1,521	...
Chitaldrug	55	...	...	...	...
Total ...	2,425	163	...	2,302	40
Deduct decrease ...	163	...	...	40	...
Net increase ...	2,262	...	...	2,262	...

The increase was mostly under Forms VII and IV, *viz.*, "License to possess arms and ammunition for the purpose of destroying wild animals" and "License to possess arms or ammunition and to go armed for purposes of sport, etc.," respectively, and in the districts of Shimoga, Bangalore and Kadur. The increase in the Shimoga District was marked, being 1,662, next come Bangalore and Kadur with 452 and 207, respectively. The increase in the Shimoga District is reported as being due to the grant of licenses to several persons who, though possessing arms, had not taken out licenses but registered for the first time during the late census. The Bangalore District explains the increase to be due to the renewal during the year under report of several licenses received late in the previous year, while the Kadur District attributes it to several licenses issued afresh under Form No. IV after necessary enquiry being made as to the character, etc., of the applicants.

Not a single license was issued under Form No. V, *viz.*, "License to go armed on a journey" during the year, against 2 in the previous year.

The number of arms covered by the licenses was 19,194 fire-arms and 177 of other description, against 16,997 fire-arms and 177 other arms during the preceding year.

2. Statement No. II attached furnishes particulars relating to sulphur. The total number of dealers in sulphur during the year was 81 or 2 more than in the previous year.

The opening balance of sulphur in stock with the dealers on the 1st January 1908 was 15 tons, 2 cwts., 3qrs., and $8\frac{17}{28}$ lbs. or 7 cwts. and $7\frac{3}{4}$ lbs. less than the closing balance on the last day of December 1907. This deficiency in the opening balance was due to the exclusion of the stock of two dealers owing to the absence from Shimoga District of the former licensee and the death of another in the Hassan District.

Sulphur was chiefly used in the preparation of fire-works, medicines, etc.

3. Statement No. III shows the number of shops licensed under Forms II and III and the results of inspection by the Police and the Magistracy.

The total number of shops for which licenses were obtained during the year was 106 or one more than in the previous year. Of these, five shops had stopped business, leaving a balance of 101 for inspection. Of these, all but three shops, *viz.*, two in the Kadur District and one in Bangalore, were inspected either by the Police or by the Magistrates. Police Inspectors inspected 82 shops, District Superintendents and Assistant Superintendents of Police 52 and Magistrates 71. The inspection work during the year is more satisfactory than that in any of the preceding years.

Proceedings of the Government of His Highness the Maharaja of Mysore,

Proceedings of the Government of His Highness the Maharaja of Mysore.

No. J. 3531-9—Police 153-08-2, dated Bangalore, 18th May 1909.

Order thereon.—The report was due in this office on the 1st March 1909, but it was received only on the 24th idem owing to the failure of the District Magistrates to send up their reports to the Inspector-General of Police within the prescribed time. The delay was particularly bad in the case of the Hassan District, the report for which was only received in the Inspector-General's office so late as the 15th March 1909. Government must again invite the attention of District Magistrates to the instructions contained in Government Order No. J. 3138-46—Police 155-06-2, dated the 11th April 1907, and they trust that such delays will be avoided in future.

2. The total number of licenses of all kinds issued in the course of the year was 18,500 against 16,238 in the preceding year, showing an increase of 2,262. This increase was chiefly under Forms IV and VII ("License to possess arms or ammunition and to go armed for purposes of sport" and "License to possess arms and ammunition for the purpose of destroying wild animals") and occurred in the districts of Shimoga, Bangalore and Kadur. This is attributed chiefly to the fact that several persons in the Shimoga District who were found to possess guns without licenses during the late census regulated such possession thereafter by obtaining licenses.

3. The number of shops licensed under the Regulation was only one more than during the preceding year or 106; and as five of them closed down, there were only 101 shops left for inspection. Government are glad to note that so many as 98 of them were inspected in the course of the year by Police officers and the Magistracy and trust that this improvement will be maintained in future years.

4. The number of prosecutions instituted during the course of the year was 47 (involving 51 persons) as against 51 (involving 53 persons) in the year 1907; and he number of cases ending in conviction was 38 as against 43.

No. J. 3540-79—Police 179-08-1, dated Bangalore, 18th May 1909.

Order.—It has been frequently observed of late that communications which are addressed to Government are being received without the prescribed docket, *i. e.*, without the subject matter of the communications in abstract being entered on the back of the letters. The attention of Heads of Departments and Deputy Commissioners is invited to the instructions contained in Official Memorandum No. 1108-47—Cir. 5, dated the 16th April 1892, and they are requested to see that the instructions contained therein are strictly enforced.

Letter No. 1834, dated 17th March 1909, from the President of the District Board of Kolar, requesting sanction to an additional grant of Rs. 7,820 out of the current year's District Fund budget for meeting the cost of incomplete works of previous years.

No. 11105-16—L. B. 160-08-7, DATED BANGALORE, 8TH MAY 1909.

ORDER THEREON.—In the circumstances stated by the President, the additional grant asked for is sanctioned as a special case, with the observation that it is objectionable from a financial point of view to start new works when there is a large number of incomplete works to be provided for, and when the total amount available for works is limited. To ask for funds for incomplete works after the budget is passed and during the currency of any year, is not right as it upsets the budget programme. The President is therefore requested to be so good as to see that the amount required for incomplete works, which should have priority over new works, is first provided when the estimate for a year is framed.

Letter No. 8563—553, dated 26th March 1909, from the Inspector-General of Education, stating that Government in their Order No. 3643-4—Ed. 274-07-6, dated 17th October 1908, have made a sudden and inconvenient change in the powers of the Inspector-General in the matter of utilizing the provision made in the Budget for "Encouragement of Authors," and requesting that he may be permitted to dispose of applications for patronage on his own authority without reference to Government.

No. 11663—EDN. 363-08-2, DATED BANGALORE, 21ST MAY 1909.

ORDER THEREON.—The Inspector-General is informed that Government are inclined to leave matters as they are under the Government Order of the 17th October 1908, referred to, and that the action of Government in dealing with applications for patronage will be regulated by the responsible advice of the Head of the Education Department, whether or not the powers of final sanction rest with him.

1. Government Order No. G. 374-7—G. M. 43-08-2, dated the 17th July 1908, directing the Deputy Commissioner, Bangalore, to submit a report regarding the proposal to remove the Cubbon Park Police Station of a site adjoining the northern boundary of "Prospect House" with a view to improve the vicinity of the Queen's Statue in the Cubbon Park.

2. Subsequent correspondence on the subject ending with the Bangalore Deputy Commissioner's letter No. S. 386, dated the 11th February 1909.

No. G. 6437-41—G. M. 43-08-5, DATED BANGALORE, 12TH MAY 1909.

ORDER THEREON.—In consultation with the Hon'ble the Resident, the Superintendent, Government Gardens in Mysore, and the Deputy Commissioner, Bangalore, it has been finally agreed that an extent of land measuring 949 square yards to the north of "Prospect House" and marked A B C D E in the accompanying plan, be handed over to the Civil and Military Station authorities for the erection of a Police Station in exchange for the site occupied by the present Police Station measuring 1,013 square yards and marked SBXIV—1, SBXIV—2, SBXIV—3, SBXIV—4 in the plan. Government are accordingly pleased to direct the Deputy Commissioner, Bangalore, and the Superintendent, Government Gardens, to take early steps to effect the exchange, and to see that the new site is properly demarcated on the ground according to the plan.

2. The consequent alteration in the demarcation of the boundary line between the City and the Civil and Military Station will be notified in the official Gazette when the exchange is formally effected, a report as to which should be submitted to the Government by the Deputy Commissioner, Bangalore.

READ—

1. Government Proceedings No. 4354-5, dated 6th March 1907, directing the taking ov under Government management, of the charities established by Mr. Kavle Dyavappa Sagar, together with their endowments, and also fixing a scale of expenditure therein.

2. Correspondence ending with letter No. 362—201, dated 22nd December 1908, fro the Deputy Commissioner, Shimoga District, stating that Mr. Kavle Dyavappa is willing deposit the sum of Rs. 4,000 standing in the Savings Bank in the name of the charitie established by him at the favourable rate of 4 per cent interest ordered in Governme Notification No. 4007—Genl. Fl. 184-05, dated 12th February 1908.

3. Docket No. 2978—685, dated 13th April 1909, from the District Judge, Mysore, enqui ing if Mysore 4 per cent loan bonds belonging to other charities are available for sale, so th he might arrange to invest monies to the extent of Rs. 6,000 belonging to Mirle Krishnappa charities now in his Court.

No. 1820-23—MUZ. 97-07, DATED BANGALORE, 7TH MAY 1909.

ORDER THEREON.—Out of Rs. 10,000 with which Mr. Kavle Dyavappa h endowed the new temple and chattram built by him at Sagar, a sum of Rs. 6,000 ha been invested in the Mysore Government 4 per cent loan and the balance remains i the Savings Bank as no 4 per cent loan bonds could be procured for it. M Dyavappa now requests that the amount may be received by Government as deposit at the favourable rate of 4 per cent sanctioned for charitable endowments und Notification No. 4007—Genl. Fl. 184-05, dated 12th February 1908.

2. The Muzrai Superintendent, however, recommends that this amount as we as the sum of Rs. 4,000 now remaining in the Savings Bank for the benefit of th charities, may be invested at the favourable rate of 4 per cent interest sanctione in the Notification of the 12th February 1908 referred to above, so that a permane investment and income may be secured to the charities in fulfilment of the objec of the donor. There is no objection to this course according to the rules of th Financial Department as the 4 per cent loan bonds of Rs. 6,000 can be easil dipsosed of and the proceeds received as a deposit with Government at 4 per cen interest.

3. Under the foregoing circumstances, the Government are pleased to approv of the Muzrai Superintendent's recommendation to invest the full amount of Rs. 10,00 endowed to the charities by Mr. Kavle Dyavappa at 4 per cent interest. For th purpose the Comptroller to Government is requested to issue needful instructio to the Deputy Commissioner, Shimoga District, in the matter of withdrawing th sum Rs. 4,000 referred to above from the Savings Bank, and in consultation wit the District Judge of Mysore to arrange for the sale at par of the Mysore Stat Loan Bonds of the face value of Rs. 6,000 now standing in Mr. Dyavappa's nam for the benefit of Mirle Krishnappa's charities, and also to take early steps for th full amount of Rs. 10,000 thus realized belonging to Mr. Dyavappa being deposite with Government at the favourable rate of 4 per cent interest as directed above.

4. The Deputy Commissioner, Shimoga District, will get the necessar document executed by Mr. Kavle Dyavappa in accordance with Rule IV of Govern ment Notification No. 4007—Genl. Fl. 184-05, dated 12th February 1908.
